NUVIDA contains some rather unusual salts. They are those which are commonly employed in the treatment of a large group of derangements, all based upon defects of elimination of poisons constantly formed in the body: especially in that large group of disorders caused by defects in metabolism.

THE Keeley Cure

The world wide fame of the system of treatment discovered and devised by the late Dr. Leslie E. Keeley is earned by its world wide success in relieving over a quarter of a million people from all necessity, craving and desire for Alcoholic liquors, Morphine and other drug addictions, Cigarette and Tobacco using. Also cures Neurasthenia. Dr. J. E. Blaine, the Physician and Manager of the Keeley Institute of St. Louis, was for eight years the Chief of Dr. Keeley's Medical Staff at Dwight, Ill. No one has a larger or more complete experience in the management and treatment of these addictions than Dr. Blaine. This Institute is most centrally located, and complete in every particular. Everything is adapted to make the patient's residence pleasant as well as profitable, with freedom from unpleasant associations, restrictions or publicity. Mental and physical vigor restored. Remedies are absolutely free from injuries or harmful drugs. Home Treatment for Tobacco and Neurasthenia.

EPILEPSY TREATMENT

Bromo Adonis for Petti Mal. Bromo Adonis 2nd for Grand Mal.

SAMPLE OFFER TO PHYSICIANS.

We will send free (express paid) half pint bottle of either preparation to any physician who has a case and will test it; or two bottles of either kind, or one of each will be sent if receiver will agree to pay expressage on receipt thereof.

These remedies combine the Bechterew Treatment by Adonodin, with the purest Bromides in such a way as to minimize the effects of bromism; and they do give results that are simply startling. Positively the largest per cent of cures obtainable; in incurables, the most wonderful control of seizures. One case reported, having from 10 to 40 spells a day, cured, and stays so for three years—medicine discontinued. Another case, 38 years a sufferer, now four years without seizures. Another, a physician's daughter, a severe type of Grand Mal, apparently hopeless, two years without relapse. Doctor, results tell! Have you cases? Send for samples, literature, physicians' reports and terms which are very moderate. Give express office in ordering.

ANESTHAINE (Abbott)

Dimethylaminobenzoylpentanol hydrochloride, two per cent, with compatible, synergistic antiseptics, in sterile solution. Does not contain cocaine or any other derivative from coca erythroxyton.

It is a safe (nontoxic), sure and cheap *local* anesthetic, for which you will find hundreds of uses. There's nothing better to render painless the opening of boils or felons, the evacuation of abscess-cavities, the extraction of teeth, the suturing of wounds, operations upon the eye, nose and throat work, and the other various operative procedures for which local anesthesia may properly be used.

Anesthaine (Abbott) contains no cocaine. There no unpleasant or dangerous after-effects or sequels, such as so often follow the use of that substance. It is safe, sterile, always ready for immediate use, being permanently antiseptic in this solution, and never spoils.

**AS A GENERAL ANES-
THETIC FOR HYPODER-
MATIC USE**

(No. 1, Full Strength, 40c.)

**HYOSCINE-MORPINE-
CACTIN STANDS WITH-
OUT A PEER**

(No. 2, Half Strength, 30c.)

It is Anesthetic, Analgesic, Antispasmodic and Hypnotic

Nearly eight million of doses have now been used; alone or supplemented by ether, chloroform or nitrous oxide q. s. in surgery, to produce anesthesia without nausea, vomiting, post-operative pains or shock; in obstetrics, to relieve all its pains and terrors and in spasmodic pains of all kinds, giving maximum of effect with minimum of drug used and no drying, constipating and other annoying after-effects; it (H-M-C) also, like Anesthaine, being safe, sure and cheap.

SPECIAL: One bottle of Anesthaine sent once only to any physician on receipt of this advertisement and 25 cents.

Samples of H-M-C, with formula and literature, will be sent to any physician on request mentioning this journal. Or in lieu of samples, and once only, we will send one tube (25 hypodermic tablets) of each—No. 1, 40c; No. 2, 30c; and one bottle of Anesthaine, 75c—40 + 30 + 75 = \$1.45—to any physician, with formulas and literature, on receipt of this advertisement and one dollar.

Spinal Anesthesia, on trial, is interesting but impractical for the average man under usual conditions. Anesthaine (local) and H-M-C (general) as anesthetics of safety, economy (3c per operation for H-M-C and 5c for Anesthaine, under usual conditions), and utmost utility, are long since past the trial stage, having been accepted by the profession at large with a confidence, based on experience, rarely given.

We await your pleasure as above, money back if not satisfied. The trade is supplied. If you wish our complete price list of active principles and high-grade chemicals, say so.

SYNOPSIS OF CONTENTS.

The eleventh revised edition of Polk's Medical Register and Directory of North America contains 2716 pages.

The first 204 pages are devoted to general miscellaneous information and embrace: National and Inter-State Associations and Societies Relating to Medicine and Surgery; the Army Medical Museum at Washington; the U. S. Naval Medical School at Washington; Officers of the Medical Department of the U. S. Army; Medical Corps of the Navy of the United States; U. S. Marine Hospital Service; Merchant Marine Hospital Service (Foreign) for Atlantic, Gulf and Pacific ports; U. S. Indian Service; Roster of Examining Surgeons appointed under authority of the Commissioner of Pensions; Existing and Extinct Medical Colleges of North America; Auxiliary and Post-Graduate Institutions and Courses; Medical Journals in North America; Medical Libraries and Medical Departments in General Libraries; Therapeutic Classification of American Health Resorts by Guy Hinsdale, M. D., etc.

Pages 205 to 2106 contain the List of Physicians and Surgeons, or Directory proper, arranged by location, giving postoffice address, with population, the school practiced, date and college of graduation, etc. At the commencement of the list for each State, territory or province is a descriptive article embodying such matters as location, boundaries, latitude and longitude, extent in miles and acres, statistics regarding climate, population, etc., followed by list of Medical Colleges, State Board of Health, State Board of Medical Examiners, Health Officers at Principal Points, Hospitals, Sanitariums, Dispensaries, Penal, Reformatory and Charitable State Institutions, Medical Societies, Mineral Springs, and the law regulating the practice of medicine.

This is followed by the Supplement (pages 2107 to 2109), which contains names of physicians received too late for compilation in their respective locations, also changes in information, removals and items of miscellaneous information regarding Medical Institutions, Societies, etc., received too late for insertion in their proper place in the work.

Pages 2111 to 2568 contain the Index to Physicians in the United States arranged alphabetically where reference is made to the page on which each name appears with address and full medical record.

The index to the officers of the medical departments of the U. S. Army, the U. S. Navy, the U. S. Marine Hospital Service, the U. S. Indian Service and the Merchant Marine Hospital Service (Foreign) will be found immediately following the regular index.

The work is supplemented by a Classified Business and Physicians' Supply Department, embracing a list of the leading firms in North America engaged in the manufacture and sale of goods pertaining to the profession of medicine. Each class is embraced in one list and arranged by location and cities or towns.

NOTE.—Special attention is called to the fact that the asterisk (*), meaning "no report received in answer to inquiry regarding graduation," does not at all imply that the physician after whose name it appears is a non-graduate. Doubtless the names of some are so inserted who are graduates and prominent in their profession; in such cases the publishers found it impossible to secure the desired graduation data before going to press.

The Publishers invite friendly criticisms of the "Register," and will be glad to receive notice of errors or omissions, also of deaths and changes of address.

NATIONAL AND INTER-STATE ASSOCIATIONS

AND

SOCIETIES RELATING TO MEDICINE AND SURGERY.

AMERICAN MEDICAL ASSOCIATION.

CONSTITUTION.

Article I.—Title. The name and title of this organization shall be The American Medical Association.

Article II.—Object. The object of this Association shall be to promote the science and art of medicine. Contributing to this end, the Association shall endeavor to unite into one compact organization the medical profession of the United States for the purpose of fostering the growth and the diffusion of medical knowledge, of promoting friendly intercourse among American physicians, of safeguarding the material interests of the medical profession, of elevating the standard of medical education, of securing the enactment and the enforcement of just medical laws, of enlightening and directing public opinion in regard to the broad problems of hygiene, and of representing to the world the practical accomplishments of scientific medicine.

Article III.—Membership. The membership of this Association shall consist of such members of the Constituent Associations and of such medical officers of the Army, of the Navy and of the U. S. Public Health and Marine-Hospital Service as shall make application in accordance with the by-laws hereinafter provided.

Article IV.—Constituent Associations. Those State and Territorial Medical Associations which have, or which hereafter may, become organized in accordance with the general plan of organization of the American Medical Association, and which have declared by resolution their allegiance to the said American Medical Association, and which shall agree with other State and Territorial Medical Associations to the formation and the perpetuation of the House of Delegates of the American Medical Association shall be recognized as Constituent Associations.

Article V.—House of Delegates. §1.—There shall be a business body known as the House of Delegates of the American Medical Association. It shall consist of delegates elected by the Constituent Associations, by the scientific sections of the American Medical Association, from the medical departments of the Army and of the Navy, and from the U. S. Public Health and Marine-Hospital Service, in accordance with the by-laws hereinafter provided. It shall represent the delegated powers of the members of the American Medical Association, and shall be the national representative body of the Constituent Associations. It shall elect the general officers of the Association and a board of nine trustees, and shall transact all the general business of the Association of a public, professional, scientific or other nature that is not otherwise provided for. The trustees shall be members of the House of Delegates without the right to vote.

§2.—Number. The total voting membership of the House of Delegates shall not exceed 150. The medical departments of the Army and of the Navy, and the U. S. Public Health and Marine-Hospital Service and the scientific sections shall each be entitled to one delegate, and the remainder shall be apportioned among the Constituent Associations in proportion to their actual active membership as hereinafter provided in the By-Laws.

Article VI.—Sections. In order to systematize the scientific work of this Association, there shall be formed sections, each of which shall be devoted to one of the recognized branches into which the science and art of medicine are for convenience divided. New sections may be created or existing sections discontinued by the House of Delegates.

Article VII.—Branches. The House of Delegates may create such branch organizations as may be deemed essential to promote the welfare of the medical profession.

Article VIII.—Annual Sessions. The Associations shall hold an annual session at a time and place to be fixed by the House of Delegates.

Article IX.—Officers. §1.—The general officers of this Association shall be a president, four vice-presidents, a general secretary, and a treasurer.

§2.—These officers shall be elected annually by the House of Delegates, to serve for one year, or until their successors are elected and installed.

§ 3.—No member of the House of Delegates shall be eligible to the office of president or vice-president.

Article X.—Board of Trustees. § 1.—The Board of Trustees shall have charge of the property and of the financial affairs of the Association.

§ 2.—Three trustees shall be elected annually by the House of Delegates, each to serve for a period of three years.

Article XI.—Funds. Funds shall be raised by an equal assessment of not more than ten dollars annually on each of the members; from the Association's publications, and in any other manner approved by the Board of Trustees. Funds may be appropriated by the Board of Trustees to defray the necessary expenses of the Association; to enable standing committees to fulfill their respective duties and to conduct their correspondence; to encourage scientific investigations by the giving of prizes and awards of merit; to carry on its publications, and for any other purpose approved by the Board of Trustees or recommended by the House of Delegates.

Article XII.—Amendments. The House of Delegates may amend any article of this Constitution at any annual session, provided the proposed amendment shall not be acted on until the annual session next following that at which it was introduced, and provided that three-fourths of the voting members registered at the session at which action is taken vote in favor of such change or amendment.

Secretary, B. D. Harison, M. D.....504 Washington Arcade, Detroit, Mich.

BASIS OF QUALIFICATIONS FOR INTERSTATE RECOGNITION AND EN-
DORSEMENT OF LICENSES.

Prerequisite Credentials.

As a prerequisite to reciprocal registration the applicant therefor shall file in the offices of the boards of the state of which he is a licentiate and of the state where reciprocal registration is sought, such evidence of good moral and professional character as may be demanded by said boards, and such evidence, at the discretion of either board, may include proof of membership in a recognized medical society, and such membership may be considered in connection with the other evidences of character presented.

Qualification 1.

A certificate of registration showing that an examination has been made by the proper board of any state, in which an average grade of not less than 75 per cent was awarded, the holder thereof having been at the time of said examination the legal possessor of a diploma from a medical college in good standing in the state where reciprocal registration is sought, may be accepted, in lieu of examination, as evidence of qualification. Provided, that in case the scope of the said examination was less than that prescribed by the state in which registration is sought, the applicant may be required to submit to a supplemental examination by the board thereof in such subjects as have not been covered, and, provided that the applicant had been engaged in the reputable practice of medicine at least one year in the state issuing the certificate on which endorsement is sought.

Qualification 2.

A certificate of registration, or license issued by the proper board of any state may be accepted as evidence of qualification for reciprocal registration in any other state. Provided, the holder of such certificate had been engaged in the reputable practice of medicine in such state at least one year, and also provided that the holder thereof was, at the time of such registration, the legal possessor of a diploma issued by a medical college in good standing in the state in which

reciprocal registration is sought, and that the date of such diploma was prior to the legal requirement of the examination test in such state.

INSTRUCTIONS.

1. As used in this table, a Count is the measure of the work successfully completed in a secondary or high school pursued an entire school year of 36 weeks in one weekly recitation period of not less than forty-five minutes.

2. The required group, 40 Counts, must be presented by all applicants. Sufficient counts to make a total of 60 counts required may be selected from the elective group. The credit which will be accepted in the several studies is shown by the printed figures.

3. English Literature of the elective group may not be counted unless a year has been given to that subject in addition to the required ten counts in English, and Trigonometry may not be counted unless it is in addition to the required ten counts in Mathematics.

4. Civics is not accepted as a subject, but may be counted as a part of American History.

5. Biology is the equivalent of Botany and Zoology, and it can be given no credit if an applicant is credited with Botany or Zoology.

6. The scope of the course is recorded under Minimum Standard of Preliminary Education.

MINIMUM STANDARD OF PRELIMINARY EDUCATION FOR ENTRANCE TO RECOGNIZED MEDICAL COLLEGES.

A certificate of graduation from a recognized and reputable high school, academy, college or university, issued after four years of study of at least nine months in each separate year (or an equivalent recognized qualification), with the following minimum requirements:

Group I.—English Language.

- (a) English Grammar.
- (b) Rhetoric and Composition.

Group II.—History.

(a) History of the United States, as presented in McLaughlin's History of the American Nation, Johnston's History of the United States, or equivalent text.

(b) General History, as presented in Meyer's General History, or equivalent text. Greek and Roman History, or English History will be accepted as a substitute for General History.

Group III.—Mathematics.

(a) Algebra—Fundamental Rules, Fractions, Simple Equations, Involutions and Evolution, the Calculus of Radicals and Quadratic Equations, as given in Olney's Complete School Algebra, or Beman and Smith's Elements of Algebra, or some equivalent text.

(b) Geometry—as given in Beman and Smith's Plane and Solid Geometry, or equivalent text.

(c) Plane Trigonometry—as given in Wentworth's Trigonometry, or equivalent text.

Group IV.—Natural Sciences.

(a) Physics, as presented in Carhart and Chute's Elements of Physics, or an equivalent text.

(b) General Biology, or Botany and Zoology, as presented in Sedwick and Wilson's General Biology, or Spalding's Introduction to Botany and Kingsley's Comparative Zoology. These courses will be accepted only when accompanied by laboratory work.

(c) Chemistry, as presented in Freer's Elementary Chemistry, or an equivalent amount of work in Remsen's Introduction to the Study of Chemistry.

(d) Physiology and Hygiene, as presented in Colton's Briefer Course, or an equivalent text.

(e) Physical Geography, as presented in Tarr's First Book of Physical Geography, or equivalent text.

Group V.—Modern Languages.

(a) German, French or Spanish. The applicant must be able to read German, French or Spanish.

Group VI.—Classics.

Latin Grammar.

Latin Prose Composition.

Reading—Four Books of Caesar's Gallic War.

Greek Grammar.

Prose Composition.

Xenophon or Homer.

NOTE: An applicant presenting a recognized literary diploma or certificate for entrance to medical schools of a minimum standard of not less than forty-five counts in accordance with the Minimum Standard of Preliminary Education adopted, may be conditioned in 15 counts, and must remove such conditions before the State Board of Preliminary Examiners, or other recognized authority (course and examination in an authorized literary college, or attendance and examination in a recognized secondary or high school), before beginning the second course in a recognized medical school counting toward the degree, otherwise the applicant shall be held as not having complied with the requirements of the standard of preliminary education: Provided, that if at the time of matriculation the applicant, in addition to the forty-five counts required in the recognized diploma or certificate as a qualification for conditions presents a recognized supplemental certificate of course and examination in necessary studies not covered in the diploma presented or the certificate, of a date prior to registration or matriculation in a medical school, such supplemental certificate may be made a part of and included in the original diploma or certificate upon which recognition is sought.

Graduation Requirements.

1. The course shall consist of four terms in four separate calendar years.
2. Each term shall consist of at least thirty weeks of work exclusive of holidays, and not less than thirty hours of college work of each week.
3. The entire course of four years shall consist of at least 4,000 hours divided into the subjects as shown in Kober's schedule and no college shall be recognized which falls below this standard over 20 per cent in any one branch or over 10 per cent in the total.

REQUIREMENTS FOR ADMISSION TO THE MEDICAL COURSE.

Section 1. Every college holding membership in this association shall demand of each student, under the condition hereafter stated, as a minimum requirement for admission to the medical course:

(a) A bachelor's degree from an approved college or university.

(b) A diploma from an accredited high school, normal school, or academy requiring for admission evidence of the completion of an eight-year course in primary and intermediate grades, and for graduation not less than four years of study embracing not less than two years (4 points) of Latin, two years (4 points) of mathematics, two years (4 points) of English, one year (2 points) of history, one year (2 points) of physics, and six years (12 points) of further credit in language, literature, history or science.

(c). An examination in the following branches, totaling 30 points: A. Required (16 points); Mathematics (4 points); English (4 points); history (2 points); Latin (4 points); physics (2 points). B. Elective (14 points): English language and literature, 4 points; language, German, French, Spanish or Greek, in each not less than 2 points; solid geometry and trigonometry ($\frac{1}{2}$ year each), 2 points; biology (one year) or botany and zoology ($\frac{1}{2}$ year each), 2 points; chemistry (1 year), 2 points; physical geography and geology ($\frac{1}{2}$ year each), 1 point; physiology and hygiene ($\frac{1}{2}$ year each), 1 point; astronomy ($\frac{1}{2}$ year), 1 point; drawing ($\frac{1}{2}$ year), 1 point.

(One point in any subject in a high school or academic course demands not less than five periods per week of forty-five minutes each for eighteen weeks).

(d) Certificates from reputable instructors recognized by any state board of medical examiners duly authorized by law or by the superintendents of public instruction in states having no examining board, may be accepted in lieu of any part of this examination.

Section 2. This examination must be conducted by or under the authority of the board of examiners or of the superintendent of public instruction of the city or state in which the college is located. In no case shall it be conducted by any person connected with the faculty, medical or otherwise, of the institution to which the student is seeking admission.

Section 3. A student may be allowed to enter on his medical work conditioned in not more than six points, and these conditions must be removed by satisfactory examination before he is allowed to enter on the second year of his medical course.

Section 4. Colleges in membership in this association may honor the official credentials presented by students from other colleges having the standard requirements maintained by members of this association, excepting for the fourth year of their course, but no member of this association shall admit a student to advanced standing without first communicating with the college from which such student desires to withdraw, and receiving from the dean of such college a direct written communication certifying to the applicant's professional and moral qualifications, and to the exact work he has done in said college.

Section 5. Candidates for the degree of Doctor of Medicine shall have attended four courses of study in four calendar years, each annual course to have been of not less than thirty teaching weeks' duration, and at least ten months shall intervene between the beginning of any course and the beginning of the preceding course.

Section 6. No time credit will be given to holders of a Bachelor's degree, but subject credit may be given on satisfactory examination. Four years of residence in a medical college shall be required of all candidates for the degree of doctor in medicine.

Section 7. A college which gives less than a four years' course of study, but does not graduate students, and is possessed of other required qualifications, may be admitted to membership.

Section 8. Each student shall be obliged to attend 80 per cent of the exercises in every annual course of study for which he seeks credit. No student shall be given credit on examination unless he attains a grade of 70 per cent or its equivalent in any other marking system, and no student shall be graduated unless

he shall have attained a passing grade in each and all subjects of the required curriculum.

ASSOCIATION CURRICULUM.

Section 1. The entire course of four years shall consist of at least 4,000 hours, divided into the subjects as shown in the following table, and no college shall be recognized that falls below this standard over 20 per cent in any one branch or over 10 per cent in the total. Laboratory or clinic hours may be substituted for didactic hours.

NATIONAL VOLUNTEER EMERGENCY SERVICE MEDICAL CORPS.

(Temporary office, 225 W. 106th st., New York City.)

A volunteer military medical organization. The Field Service Corps is composed of civilians from the various walks of life, medical students, nurses, pharmacists, physicians, and ex-army, navy and national guard medical officers, who act respectively as privates of the hospital corps, nurses, hospital stewards, assistant surgeons, surgeons, line officers, etc. Enrollment in this branch does not entail leaving usual occupation. Same system as national guard and state militia prevails. The corps is modeled somewhat after the Volunteer Medical Staff Corps and St. John's Ambulance Corps of England. On a strictly military basis with a full complement of line officers, commissioned and non-commissioned officers, chaplains, sanitary engineers, trumpeters, artificers, teamsters, wagoners, cooks, etc. With its independent adjutant, paymasters, judge advocate, purveyors, quartermasters, commissary and inspector-general departments, and will be permanently organized in every city of the Union on the same basis and bear the same relation to the community in protecting the health and life of the people as does the national guard and state militia in guarding the property of the citizen.

Lectures and instruction are given by the division, company and squad medical officers; this course of instruction includes, in addition to the ordinary drills and training of an infantry corps (given by the line officer in command of a company), special training in stretcher and ambulance drill, application of splints, bandages, etc., transportation of the wounded, common means employed for the urgent relief of sick or injured; care of contagious and infectious diseases, etc.

The chartered objects of the corps are: "To render medical or other aid and relief to the community in event of pestilence, catastrophe, war, etc., by maintaining an equipped service corps, to anticipate, prepare and execute sanitary measures with the concurrence of health authorities, which will insure the health and safety of life and limb of the people. To render aid to injured, transport sick and injured to place of succor, to provide food, medical relief, medicines and temporary shelter to victims of calamities, etc., as exigencies may require. To encourage the reading and discussion of papers on subjects pertaining to sanitary, medical, climatological, military, hygienic and public health matters, and to place equipment and service at the disposal of civic and military authorities of national or state government, subject to requisition on call."

REQUIREMENTS FOR MATRICULATION.

Every student, before being matriculated for the first course of medical lectures, shall be required to possess the following qualifications:

He shall hold a certificate from some known reputable physician, showing his moral character and general fitness to enter upon the study of medicine.

He must possess a diploma of graduation from some literary or scientific institution of learning, or a certificate that he has passed the entrance examination to a university, or a certificate from some legally constituted high school. The minimum preliminary education required by the Southern Medical College Association shall be, after January 1st, 1906, a high school education as attested by a diploma, or a completed course in a recognized preparatory school, or its equivalent, said equivalent to be determined by a superintendent of public instruction. A student may be given one month from the date of his admission to submit his certificate of qualification.

And if he fails to possess the requisite educational qualifications in one or more branches, he may matriculate and attend his first course of lectures, but must present the required certificate before matriculating in the second course, and all tickets or certificates issued in such cases must have the conditions plainly printed on the face of each.

A set of tickets showing that the holder has attended one full course of medical lectures in any regular and recognized Medical College shall be essential for matriculating for a second course of lectures in any college belonging to this Association; and every student, prior to matriculating for a third or fourth course of lectures, shall be required to show, by similar evidence, that he has previously taken two or three courses of lectures.

The minimum per cent. of actual attendance during any session requisite to credit a student with a full course shall be 80 per cent. of the collegiate course; and a certificate of such attendance, signed by the Dean or Secretary, shall in all instances be promptly furnished by the college so attended. Such certificate of attendance shall be required of a student before being matriculated into the next succeeding course.

No ticket or set of tickets shall be accepted as evidence that a full course in 1901-2 and thereafter has been taken, unless the Dean or Secretary has endorsed thereon his signature to a certificate that the actual attendance of the student has not been less than 80 per cent.; and said certificate shall specify the studies in which the student has passed or failed to pass.

No tickets or set of tickets shall be recognized at the hands of students from colleges the qualifications for admission to which are less than those adopted by this Association, or from colleges that do not require an actual attendance of not less than 80 per cent. of the collegiate course to constitute a full course.

ADVANCED STANDING.

The following classes of students may apply for advanced standing and obtain it, provided every applicant undergoes a satisfactory examination upon every branch below the class desired to be entered:

- (a) Graduates of Dentistry, of Pharmacy and Veterinary Medicine.
- (b) Graduates and matriculates who have completed one or more courses in Colleges of Homœopathy and of Eclectic Medicine.
- (c) Graduates of recognized colleges and universities who have completed therein prescribed courses in elementary branches of medicine, including chemistry and biology.

REQUIREMENTS FOR GRADUATION.

Every candidate for graduation must be of good moral character and must have attained the age of twenty-one years.

He must have attended, in a regular and reputable medical college, four full courses of lectures of not less than seven months (30 weeks) each, in four separate years, which is construed to mean that no two courses shall either commence or close in the same calendar year—that is, between the 1st of January and the ensuing 31st of December.

He must have dissected in two courses and must have attended two courses of clinical or hospital instruction.

He must have taken the following courses in special laboratory departments, to wit:

First year, Chemistry.

First and second years, Anatomy.

First, second and third years, Histology, Pathology and Bacteriology.

Fourth year, Surgical Laboratory.

ARMY MEDICAL MUSEUM AT WASHINGTON, D. C.

The Army Medical Museum was removed in 1887 from the building formerly known as Ford's Theater (Nos. 509 and 511 10th st. n. w.), and now occupies a portion of the building erected for it at the northwest corner of 7th and B streets s. w., east of the National Museum. The rest of the building is occupied by the library of the Surgeon-General's office, a portion of the Record and Pension Division of the War Department, and the Laboratory.

The museum was founded, and a large portion of the medical and surgical specimens collected, during the war of the rebellion. Since the close of the war, however, the officers in charge have continued to collect specimens from the medical officers of the army at the several military posts, and a number of valuable specimens have been contributed by physicians engaged in private practice. Specimens of value from private physicians are always gladly received, and thus secure permanent preservation in connection with the names of the donors.

The collection is open to visitors daily from 9 a. m. to 4 p. m.

It is richer in specimens illustrative of the result of gunshot wounds, and of the surgical operations which they necessitate, than any other collection in the world. The other departments, though not equal to some of the wealthy and long-established museums of Europe, are nevertheless by far the most important in America, and are annually increasing in extent and value.

The library is the largest and most valuable medical library in the United States and the third largest in the world. Medical men from any part of the country desirous of consulting the works in this library are courteously welcomed and granted free access.

The whole is known as the Museum and Library Division of the Surgeon-General's office.

CIRCULAR FOR THE INFORMATION OF PERSONS DESIRING TO ENTER THE MEDICAL CORPS OF THE UNITED STATES NAVY.

A candidate for examination and appointment in the Medical Corps of the Navy must be a citizen of the United States between twenty-one and thirty years of age, and must apply to the Honorable Secretary of the Navy for permission to appear before a Naval Medical Examining Board.

The application must be in the handwriting of the applicant, stating age and place of birth; also the place and State of which he is a permanent resident, and must be accompanied by letters or certificates from two or more persons of repute testifying from personal knowledge to his good habits and moral character and that he is a citizen of the United States.

FORM OF APPLICATION.

.....
19...

Sir—I request permission to be examined for an appointment as Assistant Surgeon in the United States Navy.

I was born at....., and was.....years of age on the.....day of..... 191., and am a citizen of the United States, residing in....., county of, in the State of.....

I enclose herewith certificates as to moral character, habits, and citizenship.

Very respectfully,

The Honorable Secretary of the Navy, Navy Department, Washington, D. C.

If, in reply to the above, the candidate receive a permit, he will notify the president of the Naval Medical Examining Board at the U. S. Naval Medical School, Washington, D. C., or at the U. S. Naval Hospital, Mare Island, Cal., the only places where the examinations are held, stating approximately the time at which he desires to be examined and requesting that a date be fixed for his examination.

THE EXAMINATION.

When a candidate presents himself for examination on the date fixed by the president of the Board, he must bring with him testimonials as to character and professional fitness, diplomas, and a certificate that he is a citizen of the United States.

While it is not essential, it is desirable that candidates should have had hospital experience or at least a year's practice in their profession.

The examination usually occupies about nine days, and is conducted in the following order:

I.—Physical. II.—Professional. III.—Collateral.

I.—PHYSICAL EXAMINATION.

The physical examination is thorough, and the candidate is required to certify, on oath, that he is free from all mental, physical and constitutional defects.

Acuteness of vision, 12/20 for each eye, unaided by glasses, but capable of correction, by aid of lenses, to 20/20, is obligatory. Color perception must be normal and the teeth good.

If the candidate is found to be physically disqualified his examination is concluded; if found to be physically qualified his examination is continued as follows:

(I) Letter to the Board describing in detail his general and professional education.

II.—PROFESSIONAL EXAMINATION.

	Written questions.	Percentages required.
Anatomy (2) and physiology (1).....	3	70
Surgery (2)	3	70
Medicine (2)	3	70
Pathology (1).....	2	55
Obstetrics (1) and medical jurisprudence (1).....	2	55
Materia medica and physiological action of drugs.....	2	70
Chemistry (1) and clinical microscopy (1).....	2	55
Hygiene (1) and quarantine (1).....	2	55
General aptitude.....		80
Literary and scientific branches.....		70
Required aggregate.....		650

Bandaging; tourniquets; four operations on cadaver; clinical cases (a written report being made in one case giving history, diagnosis, prognosis, treatment, one prescription, at least, being written out in full, in Latin); urinalysis (chemical and microscopical examination of one specimen of urine); practical microscopy, and recognition of five mounted specimens (histological, pathological and bacteriological); recognition of surgical instruments.

ORAL EXAMINATION.

This follows the written work in each branch and the required percentage is made up from the combined results of the written and the oral examinations.

The percentages given are not absolute, however, as losses in some branches may be made good in others, provided the standard is reached in the cardinal subjects of anatomy, physiology, medicine, and surgery.

III.—COLLATERAL EXAMINATION.

This embraces spelling, punctuation, the use of capital letters, grammar, arithmetic, geography (descriptive and physical), languages, history, general literature, elementary botany, geology, and zoology.

While due credit is given for a knowledge of languages and the sciences it is not essential except in the case of physics. A knowledge of the common school branches is essential.

This examination will be omitted in the case of applicants holding diplomas or certificates from reputable literary or scientific colleges, normal schools or high schools, or of graduates of medical schools which require an entrance examination satisfactory to the Naval Examining Board.

The Boards are required, under oath, to report on the physical, mental, moral and professional qualifications of the candidate, so that the examinations are necessarily comprehensive, though simple and practical, and not beyond the attainments of any well-educated physician. The oral and written questions are similar to those asked by the best medical colleges in examinations for graduation.

A successful candidate, upon completion of his examination, will be notified by the president of the Board that he has been found qualified.

With the consent of the Board, a candidate may withdraw at any period from further examination, and may at a future time present himself for re-examination. The Board may conclude the examination (written, oral, and practical) at any time, and may deviate from this general plan as it may deem best for the interests of the naval service.

All successful candidates will receive appointments as soon as qualified and in the order of merit reported by the Board.

The tenure of office in the Medical Corps of the Navy is for life unless sooner terminated by removal, resignation, disability, or other casualty.

No allowance will be made for the expenses of persons appearing for examination.

The officers of the Medical Corps of the Navy are as follows: Medical directors, medical inspectors, surgeons, passed assistant surgeons, and assistant surgeons.

Vacancies in these grades (by death, or retirement at the age of 62 years) are filled in the order of seniority, and for each promotion a physical and a professional examination is required by law.

Assistant surgeons are examined at the expiration of three years' service for promotion, and if successful become passed assistant surgeons.

VACANCIES.

Through the provisions of a law enacted by the Fifty-seventh Congress, March 3, 1903, the Medical Corps of the Navy was increased 150 numbers; 25 to be appointed each calendar year for six years. The number of vacancies occurring through retirements, resignations, and casualties average about 10 a year. There are afforded, therefore, for candidates for the position of assistant surgeon about 35 appointments each year for the six years following the above date.

For further information address President Naval Medical Examining Board, U. S. Naval Medical School, corner Twenty-third and E streets n. w., Washington, D. C., or President Naval Medical Examining Board, U. S. Naval Hospital, Mare Island, Cal.

FOR THE INFORMATION OF PERSONS DESIRING TO ENTER THE MEDICAL CORPS OF THE UNITED STATES NAVY AS ACTING ASSISTANT SURGEONS.

1. Naval medical examining boards for the examination of candidates for appointment as Acting Assistant Surgeons have been organized at (a) the U. S. Naval Hospital, Chelsea, Mass.; (b) the U. S. Naval Hospital, New York, N. Y.; (c) the U. S. Naval Hospital, Philadelphia, Pa.; (d) the U. S. Naval Medical School, Washington, D. C.; (e) the U. S. Naval Hospital, Mare Island, Cal.

2. A candidate for examination and appointment as Acting Assistant Surgeon in the Medical Corps of the Navy must be a citizen of the United States, between 21 and 28 years of age, and must apply to the Honorable Secretary of the Navy for permission to appear before a naval medical examining board.

3. Form of application (to be made out in handwriting of applicant):

.....
....., 19...

Sir: I request permission to be examined for appointment as Acting Assistant Surgeon in the United States Navy at.....*

I was born at....., and was....years of age on the....day of.....
....., State of.....

I enclose herewith certificates as to moral character, habits, and citizenship.
Very respectfully,

.....

The Honorable Secretary of the Navy,
Navy Department, Washington, D. C.

*The applicant will indicate the board before which he desires to appear.

4. Upon the receipt of an application the candidate may be granted permission to appear before an examining board at the place requested in his letter of application.

5. Upon receipt of a permit the candidate will communicate with the President of the Board at the place designated, who will fix a date for his examination.

6. On presenting himself before the board for examination the candidate must take with him (a) a certificate that he is a citizen of the United States, (b) testimonials as to character and professional fitness, (c) diplomas.

7. The physical examination of the candidate will be conducted in accordance with the requirements contained in the circular relating to the physical examination of candidates for entrance into the Medical Corps of the Navy, dated "Navy Department, November 17, 1905," a copy of which appears on page 112.

8. The professional examination of the applicant will be similar to that required of candidates for appointment in the regular service. This embraces the different branches of medicine.

9. The collateral examination will be on those subjects usually taught at high schools, which will be omitted in the case of applicants holding diplomas or certificates from reputable literary or scientific colleges, normal or high schools, or of graduates of medical schools which require an entrance examination satisfactory to the Naval Medical Examining Board.

10. A successful candidate will promptly receive an appointment as vacancies exist, and upon acceptance of appointment will receive pay and be ordered to duty. The rate of annual pay will be \$1,400 for shore duty, and for duty on board ship, \$1,700.

11. At the beginning of the term of the Naval Medical School, on the 1st of October of each year, all candidates who have been examined and appointed during the previous year as Acting Assistant Surgeons will be ordered to the school for a course of instruction.

12. Upon the completion of such course they will be ordered before the Naval Medical Examining Board at Washington, D. C., for examination for admission as

Assistant Surgeons in the Medical Corps of the Navy. An examination for admission as Assistant Surgeon will, however, be allowed at any time, subsequent to appointment as Acting Assistant Surgeon, if the candidate is regarded as prepared for such an examination.

13. Acting Assistant Surgeons who have had the benefits of a course of instruction at the Naval Medical School, and who fail to qualify for admission to the regular service, will have their appointments revoked.

14. No allowance will be made for expenses of candidates undergoing examination for Acting Assistant Surgeon.

15. An Acting Assistant Surgeon traveling under orders is allowed eight cents per mile.

CIRCULAR FOR THE INFORMATION OF PERSONS DESIRING TO ENLIST IN THE HOSPITAL CORPS, U. S. NAVY.

I. The Hospital Corps of the Navy consists of the following grades:

- (a) Pharmacists.
- (b) Hospital stewards (classified as chief petty officers, special branch).
- (c) Hospital apprentices, first class (classified as petty officers, third class, special branch).
- (d) Hospital apprentices (classified as seamen, second class, special branch).

II. All applications for enlistment in the Hospital Corps of the Navy must be addressed to the Surgeon-General U. S. Navy, and should be accompanied by suitable testimonials as to character, habits, citizenship, etc.

III. A candidate applying for original enlistment should state concisely: Name in full, date of birth, nativity, citizenship, general education, hospital experience (if any), and whether a graduate of a training school for nurses.

IV. The term of enlistment in the rates of hospital steward, hospital apprentice (first class), and hospital apprentice, is for four years.

V. No allowance will be made for traveling and other expenses attending the examination of applicants.

VI. On original enlistment, applicants for admission into the hospital corps, U. S. Navy, must be between the following mentioned ages:

Hospital stewards.....	21 to 28 years
Hospital apprentices (first class).....	21 to 28 years
Hospital apprentices	18 to 25 years

VII. Physical and professional examinations by one or more medical officers will be required for enlistment and promotion in each of the above mentioned grades and rates.

VIII. Appointments in the grade of pharmacist will be made from hospital stewards now in the service, and all future vacancies in said grade will be filled by selection from the list of hospital stewards. The professional examination will be largely a record examination, based upon length of naval service and recommendations of medical officers with whom candidates have served.

IX. Hospital stewards for the present must be between 21 and 28 years of age, but when practicable they will be selected from hospital apprentices (first class), and will be required to pass a satisfactory examination on the following subjects, viz.:

(1) General education: Arithmetic, orthography, writing (legible and grammatical), geography, and history of the United States.

(2) Professional: (a) *Materia Medica*—the botanical names, preparations, and doses of the drugs recognized by the *Pharmacopoeia*; (b) pharmacy—the various pharmaceutical processes employed in the manufacture of officinal and official preparations, and the relative proportions of the more important drugs entering into their composition; (c) chemistry—chemical symbols, the formulate of the more important officinal chemicals, and the reactions produced by the combinations of chemicals; (d) toxicology—symptoms, toxic doses, and antidotes of poisons; (e) recognition of crude drugs, making ordinary pharmaceutical preparations, compounding prescriptions, and criticising prescriptions incorrect by reason of pharmaceutical or chemical incompatibility; (f) bandaging, minor surgery, application of splints and of dry and wet cups, and treatment of hemorrhage.

X. Hospital apprentices (first class) must be between 21 and 28 years of age, but when practicable they will be selected from hospital apprentices. Additional vacancies will be filled by enlistment of candidates found qualified.

Candidates will be examined on the following subjects, viz.:

(1) General education: Arithmetic, orthography, writing (legible and grammatical), geography, and history of the United States.

(2) Professional: (a) Clinical notes and preparation of temperature charts; (b) doses of drugs in common use; (c) employment of remedies other than by mouth, as poultices, enemata, counter-irritants, hydrotherapeutic agents, etc.; (d) names and uses of surgical instruments and those employed in clinical diagnosis; (e) preparation of patients for operation, including methods of sterilizing instruments, dressings, etc.; (f) preliminary treatment of the more common cases of poisoning; (g) application of bandages and splints and treatment of hemorrhage; (h) preparation of food for the sick; (i) preparation of beds and adjustment of clothing of patients.

XI. Hospital apprentices must be between 18 and 25 years of age. Candidates will be examined in arithmetic, orthography, writing (legible and grammatical), geography, and history of the United States. Hospital training and a knowledge of nursing will be to the advantage of the applicant.

XII. No person will be enlisted or retained in the Hospital Corps of the Navy who is addicted to the use of intoxicating liquor, or who at any time gives evidence of intemperance.

Note.—Naval pharmacists are not appointed from civil life.

DISTRICT OF COLUMBIA.

Howard University Post-Graduate School and Polyclinic, Washington. W. C. McNeill, M. D., Secretary, 539 Florida av.

The U. S. Naval Medical School, 24th and E sts., n. w., Washington. The principal work of the school is divided into two terms of instruction; the first, occupying the fall and spring, is designed for the benefit of assistant and acting assistant surgeons, who have been recently commissioned. The course includes the following subjects: (1) Naval hygiene (and so much of military hygiene as is applicable to the naval service); (2) tropical and naval medicine; (3) duties of naval medical officers; (4) general and operative surgery; (5) chemistry; (6) bacteriology; (7) pathology; (8) ophthalmology; (9) hospital corps and transport; (10) naval law; (11) psychiatry. Officers who perfect themselves in these subjects are graduated and ordered to duty at sea.

The second term begins with the late spring and is of variable duration. This course is mainly for the benefit of officers of higher rank than those of the first term, and who have been at sea; it is essentially similar to the first, except that more attention is given to practical work.

The school is opened to no one but commissioned officers of the Navy.

The institution has been in operation since 1902, and is well equipped for its special work; the completion of the new naval hospital has added greatly to the value of the course.

In addition to the regular Naval Medical Examining Board, for entrance into the Navy, boards for the examination of acting assistant surgeons have been ordered to convene at the U. S. Naval Hospitals at Chelsea, Mass., New York, Philadelphia, Mare Island, Cal., and the Naval Medical School, Washington, D. C. Successful candidates will be ordered to the Naval Medical School, Washington, D. C., during the term beginning in October, for the course of instructions, upon completion of which they will be ordered before the Naval Medical Examining Board at Washington, D. C., for examination for admission as assistant surgeons in the Navy.

Secretary's Office, 89 Third Ave., Borough of Manhattan.

The Association of American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of the business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 Reward Will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake directory.

"Every number contains a fund of practical, reliable information for the general practitioner."

..The.. Medical Fortnightly

THE MAGAZINE OF MOST FREQUENT
ISSUE IN

St. Louis, Mo.

Original

Independent

Progressive

¶The "MEDICAL FORTNIGHTLY" has had an uninterrupted existence since 1891; its field of usefulness has been constantly widening and its strength has steadily increased.

¶It reaches doctors in every state in the Union, but its special field is the "Great Mississippi Valley," in which it reaches a host of the most progressive physicians.

¶The "MEDICAL FORTNIGHTLY" is owned, edited and controlled by physicians and is essentially a physician's journal.

¶It represents the highest type of *independent* journalism, and is the only scientific bi-weekly in the Middle West.

¶Its constant aim has been to be scientific and practical, and in this it has been notably successful.

¶Both its text and its advertising pages have been kept free of matter which is undesirable.

¶We hold that our readers are educated men, who have discernment, who can select from among preparations advertised such as suit their purposes, without paternal supervision from us.

¶Our advertising rates are as low as could be with the service; we reach our readers *twenty-four* times each year.

¶If you wish to reach better than 12,000 general practitioners and keep their attention, you can do it through the "MEDICAL FORTNIGHTLY."

ALABAMA.

CAPITAL, MONTGOMERY.

Population of State, 2,214,050.

Number of Physicians, 2,363.

Alabama was organized as a territory March 3, 1817, and admitted as a state December 14, 1819. It extends from 30 degrees 12 minutes north latitude to 35 degrees north latitude, a distance of 331 miles; and from 84 degrees 55 minutes to 88 degrees 35 minutes west longitude, a distance of 214 miles, and is in the same latitude as Palestine, Northern Africa, Central China and Southern Japan. It is bounded on the east by Georgia, on the south by Florida and the Gulf of Mexico, on the west by Mississippi and on the north by Tennessee, and comprises an area of 50,722 square miles, or 32,462,080 acres. The climate is warm and semi-tropical. The northern portion is considerably colder than the southern, which is accounted for more by its greater elevation than from its higher latitude. The mean annual temperature is 62.37 degrees as observed at Auburn, which is situated near the geographical center of the State. The mean annual temperature in the valley of the Tennessee river is 60 degrees, and in the extreme south about 69 degrees. The rainfall of the State is quite noteworthy, averaging 63 inches, which is distributed with tolerable regularity throughout the seasons. The mineral springs are famous for their medicinal qualities. The following table shows the increase in population for 90 years:

1820.....	127,901	1870.....	996,992
1830.....	309,527	1880.....	1,262,205
1840.....	590,756	1890.....	1,513,017
1850.....	771,623	1900.....	1,828,697

MEDICAL LAW OF ALABAMA.

Entitled An Act, To regulate the practice of medicine in the State of Alabama.

Section 1. Be it enacted by the Legislature of Alabama, That the board of censors of the Medical Association of the State of Alabama, organized in pursuance of the constitution thereof, adopted at Tuscaloosa, in March, 1873, is hereby constituted a State board of medical examiners, and is charged with the duties herein-after prescribed.

Sec. 2. That an application for a certificate of qualification to treat diseases of human beings by any system of treatment whatsoever shall, according to rules prescribed and standards established by the Medical Association of the State of Alabama, be examined, in writing, by the State board of medical examiners in the following named branches of medical learning, to-wit: Chemistry; anatomy; physiology; the etiology, pathology, symptomatology, and diagnosis of diseases; obstetrics and obstetrical operations; gynecology; major and minor surgery; physical diagnosis; diseases of the eye, ear, nose, and throat; and hygiene and medical jurisprudence.

Sec. 3. That an applicant shall before being permitted to enter upon an examination fill out an application blank, giving his name, age, residence, college and date of graduation (if a graduate), references and such other data as the State board of medical examiners may require. The applicant shall make affidavit that he is the person he represents himself to be and that he will faithfully observe all rules governing the examination. Any member of the State board of medical examiners, or the supervisor of examinations appointed by said board, is hereby authorized to administer the oath prescribed. The board shall have the right to refuse to examine a person whose reputation is such as to render him unworthy of membership in the medical profession.

Sec. 4. That when an applicant who has undergone examination shows such a standard of proficiency in the branches of medical learning enumerated in section 2 of this act as has been, or may be, fixed by the Medical Association of the State of Alabama, a certificate of qualification, in form to be prescribed by the said association, shall be issued to the applicant, which certificate shall entitle the holder thereof to treat any diseases of human beings he may be called upon to treat in accordance with the teachings of the school or sect of medicine to which he belongs.

Sec. 5. That when an applicant states in writing that he does not propose to practice major surgery, said applicant shall be exempt from examination in said branch of major surgery, and should his proficiency in the other branches of medical learning named in section 2 of this act reach the standard established by the Medical Association of the State of Alabama, a certificate of qualification, in form to be prescribed by said association, shall be issued to him, which certificate shall entitle him to treat any diseases of human beings he may be called upon to treat in accordance with the teachings of the school or sect of medicine to which he belongs, provided that the holder shall not be entitled to perform the operations of major surgery, and that this restriction shall appear on the face of the certificate.

Sec. 6. That when an applicant fails to attain the standard of proficiency prescribed by the State Medical Association his examination shall be deemed unsuccessful. Such applicant shall, however, be entitled to another examination at any time after the expiration of six months from the date of the preceding examination.

Sec. 7. That a physician who receives a certificate of qualification shall, within ten days after locating in a county, file said certificate in the office of the judge of probate of such county for record, and should said physician remove his residence to another county he shall within said time have his certificate re-recorded. Any failure on the part of a holder of a certificate of qualification to comply with the provisions of this section shall render such certificate null and void.

Sec. 8. That the judge of probate of a county shall provide a blank book, of suitable size, to be called the "register of physicians," in which book shall be recorded all certificates of qualification filed by physicians of the county. The fee for recording such certificate shall be fifty cents. At some time between the first and tenth of January of each year the said judge of probate shall forward to the State board of medical examiners a full report of the names of all physicians, together with their post offices, whose certificates have been recorded in his office

for the preceding year; and if any physician whose certificate was so recorded shall have removed from the county or shall have died the place to which such physician has removed, if known, or the date of the death, as the case may be, shall be reported.

Sec. 9. That the State board of medical examiners may establish reciprocal relations with similar boards of other states in reference to the issuance of certificates of qualification, provided that such reciprocal relations shall not be established with the State board of examiners of any state that does not require examination upon substantially the same branches of medical learning as those enumerated in section 2 of this act, and does not maintain a standard of proficiency at least equal to that maintained by the State board of medical examiners of this State. When such reciprocal relations have been established a certificate of qualification may be issued without examination to a person who presents evidence that he has complied with the requirements of a reciprocating State board of medical examiners, provided that on the face of a certificate issued in accordance with this section it shall appear that such certificate was issued pro forma and without examination.

Sec. 10. That a physician who resides in an adjoining state, near the border of this State, shall be allowed the privilege of practicing in any county of this State into which his practice may extend without examination, provided that he holds a certificate of qualification from his own State board of medical examiners and causes said certificate to be placed on record in the office of the judge of probate of the county or counties in this State into which his practice extends, and provided further, that he shall not open an office, or establish a place, in this State at which calls may be left for him. A similar privilege shall be accorded a licensed physician of any state who may be called into this State in consultation with a physician, except that such consulting physician shall not be required to place his certificate of qualification on record.

Sec. 11. That the State board of medical examiners may issue to a surgeon, or assistant surgeon, of the United States army or navy, or of the United States public health and marine hospital service a certificate of qualification without examination, provided that such surgeon or assistant surgeon, presents to the State board of medical examiners a commission, or other satisfactory evidence, showing that he is a medical officer of the United States army, navy, or marine hospital service, as the case may be, and provided further that upon the face of the certificate of qualification so issued, it shall appear that the certificate was issued pro forma, and without examination.

Sec. 12. That the State board of medical examiners is hereby empowered to revoke the certificate of qualification of any physician who uses intoxicating liquors, or drugs, to such an extent as to be thereby rendered unsafe or unreliable as a practitioner; or that of any physician who is guilty of grossly immoral or unprofessional conduct; or that of any physician who induces, or aids in inducing, a criminal abortion, or a criminal premature delivery, in a woman, provided that the induction of abortion, or of premature delivery, when done for the relief of a woman whose life appears to be in peril shall not be deemed criminal; and provided further, that whenever possible the attending physician shall before performing such an operation call into consultation with him one or more other physicians.

Sec. 13. That whenever complaint, in writing, is made to the State board of medical examiners that a physician in this State has committed any of the offenses named in the preceding section (12), it shall be the duty of said board to summon such physician to appear before it for investigation of the complaint, provided that thirty (30) days notice of the nature and specifications of the complaint, and of the time and place at which the investigation will be made shall be given the physician against whom such complaint has been filed. When the investigation is held, which shall be conducted with as little publicity as possible, the person who files the complaint and the physician against whom the complaint has been filed shall have the right to introduce witnesses, or written testimony, or both, and shall also have the right to be heard in person or by counsel, or both. For good reasons such investigation may be adjourned from time to time.

Sec. 14. That when the State board of medical examiners decides to revoke the certificate of a physician, it shall notify such physician of the order of revocation, and shall instruct the judge of probate of the county in which said physician resides to make an entry on the margin opposite to the recorded certificate of such physician to the effect that upon the order of the State board of medical examiners the certificate has been revoked, entering also the date of revocation. Any physician whose certificate has been ordered revoked by the State board of medical examiners shall have the right of appeal to the State Medical Association, or to a court of competent jurisdiction, one or both, of which appeal such physician must give the State board of medical examiners notice within three days after having been informed of the decision of the board. When the State board of medical examiners has received notice of such appeal it shall await the result of the appeal before instructing the judge of probate to make the entry of revocation.

Sec. 15. That the State board of medical examiners shall have the right to issue, with or without re-examination, a new certificate of qualification to a physician whose certificate has been revoked whenever it deems such course proper and just.

Sec. 16. That all examinations under this act shall be conducted at Montgomery, and that the State board of medical examiners shall fix the times at which examinations shall be held, provided that not less than two examinations shall be held annually.

Sec. 17. That the fee for an examination shall be ten dollars, which amount must be paid in advance of the examination and to such person as the board may authorize to receipt therefor. A fee shall not be returned to an unsuccessful applicant, but such applicant shall be entitled to a second examination without paying an additional fee, provided that such second examination is obtained within one year after the date of the first examination.

Sec. 18. That after defraying all expenses of holding an examination, such as furnishing blanks, paper, postage, certificates, the services of supervisors, clerical help, et cet., the remaining funds shall be equally divided among the ten members of the State board of medical examiners.

Sec. 19. That any person who treats, or offers to treat, diseases of human beings in this State by any system of treatment whatsoever without having obtained a certificate of qualification from the State board of medical examiners shall be guilty of a misdemeanor, and on conviction shall be fined for each offense not less than fifty nor more than five hundred dollars, and may be imprisoned for not less than one nor more than three months. A physician whose certificate of qualification is not on record in the county in which he resides shall not be entitled to recover at law any compensation for services rendered in treating diseases of human beings.

Sec. 20. That the State board of medical examiners shall keep complete records of all examinations held by it, giving the name, age, residence, college and date of graduation (if a graduate), of each applicant examined, together with the results of such examination, which record shall be open to inspection. The said board of medical examiners shall also keep complete minutes of all its proceedings, which minutes shall be so preserved as to be easily accessible should occasion arise for referring to them.

Sec. 21. That nothing in this act shall prohibit the administration of domestic remedies in a family by any member thereof, or prohibit any person from rendering service to a sick or injured person in an emergency, provided that the person rendering such service does not pursue the occupation of a physician.

Sec. 22. That all laws or parts of laws in conflict with this act shall be and are hereby repealed.

Sec. 23. That this act shall go into effect on and after the first day of September, 1907.

LIST OF PHYSICIANS

ARRANGED ALPHABETICALLY BY POSTOFFICES.

For Corrections and Names Received Too Late for Regular Insertion, see
Supplement. Refer to Index for Location.

ABBREVIATIONS:

R. Regular; H., Homoeopathic; Ecl., Eclectic; P. M., Physio-Medical; *, No report received; †, Holds certificate of Examining Board; ‡, Legally authorized under the "years of practice" section of the act; †, Dentist; R. D. 1, Rural Free Delivery No. 1.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 143-189) indicates the college of graduation, and the last number the year in which diploma was granted.

Don't STAMMER

are endorsed by hundreds of ex-pupils, prominent physicians and leading business men. Book "Advice to Stammerers" and reference sent on request. Address The BENJ. N. BOGUE INSTITUTE FOR STAMMERERS-1414 N. Illinois, Indianapolis, Ind.

I cured myself after stammering badly for nearly twenty years. I now employ the same methods to cure others. As "like cures like," what worked a cure with me will likewise permanently cure others. Graduates are found in every state, territory and some foreign countries. Students are accommodated in a home-like dormitory. Methods

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

ALASKA.

CAPITAL, SITKA.

Population, 93,000.

Number of Physicians, 64.

Alaska is the most outlying possession of the United States. About one-quarter of its total area lies within the Arctic circle and from a geographic standpoint the country must be classed as an Arctic province. Its climate, however, will not bear out this view. The southern seaboard, exposed to the warm winds and waters of the Pacific, gives that entire portion a comparatively warm climate. In reviewing the country as a whole it can be said that the range in Alaskan temperatures is greater than that between Maine and Florida. The southernmost point on the coast will average about the same temperature as Washington warmer and there is less snowfall. The Yukon Valley is somewhat similar in temperature in winter to Montana and Dakota, while in the extreme north the meteorologic conditions are invariably Arctic.

Alaska's coast line is 26,000 miles long—7,860 greater than the Atlantic seaboard of the United States. The length of the district of Alaska is more than 2,000 miles and its breadth is nearly 1,500 miles. It embraces 586,401 square miles or 375,296,240 acres. The purchase price paid Russia was \$7,200,000, or less than 2 cents an acre. In 1890 the mineral output was less than \$800,000. In 1904 it reached \$9,110,000 and in 1907, \$31,200,000. The rapid development of the territory has resulted in much government explorations, surveys and investigations. So actively has this work been carried on that while in 1890 little was known of Alaska, today its geography, geology and mineral resources are circulated in detail for every part of the country. The Agricultural Department has established successful experimental stations at various points within the district, demonstrating that vegetables, grains, grasses, fruit trees and live stock are adapted to the climate and with further immigration will prove a boom to the already valued resources of the north. The fishing industry has developed to an annual pack of about 2,000,000 cases of salmon, while other varieties add materially to the volume of this trade. Fur and whale hunting are also other remunerative branches of industry.

ARIZONA.

CAPITAL, PHOENIX.

Population of Territory, 143,745.
(U. S. Supplemental Census of 1906.)
Number of Physicians, 215.

Arizona extends from 109 degrees to 114 degrees, 47 minutes, 6½ seconds longitude west of Greenwich, and from 31 degrees, 19 minutes, 24 seconds, to 37 degrees north latitude, and is bounded on the north by Utah and Nevada, on the east by New Mexico, on the west by California and Nevada, and on the south by the Republic of Mexico. It comprises an area of 113,916 square miles, or 72,906,240 acres, or nearly three times the size of New York State.

The territory was organized in 1863.

The climate is salubrious and pleasant, except in the lower sections near the Gila

and Rio Colorado, where the summers are excessively hot. The air is singularly clear, tonic and dry and particularly favorable to catarrhal and pulmonary complaints. Rainfalls occur during the months of June, July, August and September. The following table shows the increase of population for 30 years:

MEDICAL LAW OF ARIZONA.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE.

Be it enacted by the Legislative Assembly of the Territory of Arizona:

Section 1. That it shall be unlawful for any person to practice medicine within the Territory of Arizona until he or she shall have obtained a license therefor, as hereinafter in this act prescribed.

Sec. 2. No person shall receive a license to practice medicine within the Territory unless he or she shall have:

First. Obtained a diploma to practice medicine, or some department thereof, regularly issued by a medical college, lawfully organized under the laws of the state or territory wherein such college shall have been located at the time of the issuance of such diploma; and,

Second. Obtained a certificate entitling him or her to practice medicine, as prescribed in Section 4, Chapter 1, of Title 53, being paragraph 3529 of the Revised Statutes of Arizona, 1901, or shall have passed a satisfactory examination prescribed by the provisions of an Act of the Legislative Assembly of Arizona, entitled, "An Act to amend an Act to regulate the practice of medicine in the Territory of Arizona," approved March 18, 1897; or,

Third. Practiced medicine within the Territory of Arizona continuously for five successive years preceding the date fixed for the taking effect of this Act; or,

Fourth. Upon examination by the Board of Medical Examiners of Arizona, shown to the satisfaction of the Board that he or she possesses sufficient knowledge and skill to properly practice medicine; and,

Fifth. Become a bona fide resident of Arizona, and shall have passed the age of twenty-one years and shall have a good moral character.

Sec. 3. There shall be and there is hereby established in Arizona, a board to be known as the "Board of Medical Examiners of Arizona." Said Board shall consist of five members, who shall be nominated and, by and with the consent of the Legislative Council, appointed by the Governor. Such members shall, at the time of their appointment, be each a bona fide citizen of the United States, and have been a resident of the Territory of Arizona for at least three consecutive years continuously next preceding the time of his appointment; and at the time of his appointment shall be and shall have been for at least three consecutive years theretofore actually engaged in the practice of medicine in the Territory of Arizona. The term of office of said members of said Board shall be for five years, except that of the members first appointed under the provisions of this Act, one of whom shall be appointed for one year, one for two years, one for three years, one for four years, and one for five years. Three of the members of said Board shall be physicians of the regular school of medicine, one of the homeopathic school of medicine and one of the eclectic school of medicine. The Board shall upon its organization, and thereafter once in each year, elect one of its members as president and one of its members as secretary thereof, whose respective terms of office as president and secretary shall be one year. The president shall preside at the meetings of the Board and shall by his signature authenticate all licenses issued under the provisions of this Act. The secretary shall keep the records of the Board, have the custody of its books, papers and seal; shall countersign all licenses issued under the provisions of this Act, and shall act as the treasurer of the Board. Said Board shall make reasonable rules and regulations for the transaction of its business, not inconsistent with law or the purposes and intent

of this Act. The Board shall meet in regular session quarter-yearly, at a regularly designated place of meeting, at Phoenix, Arizona, and at such other times as it may from time to time appoint.

Sec. 4. Any person desiring to obtain a license to practice medicine within this Territory shall make application therefor to the Board of Medical Examiners of Arizona. The application shall be in writing and state the name of the applicant, his age, his residence, the name and location of the college whence his diploma issued, the length of time, if at all, he has practiced medicine, and where, giving specifically the places where he has practiced medicine; and the dates between which he practiced at each place, and the particular school and department of medicine he practiced; and contain such other information as may be prescribed by the rules and regulations of the Board. Each application for license shall be verified by the oath of the applicant, taken before some officer authorized by the laws of Arizona to administer oaths. The application shall be accompanied by the diploma of the applicant, or by a copy thereof, authenticated to the satisfaction of the Board. The applicant shall also present with his or her application the affidavits of at least three or more residents of the county and state wherein the applicant formerly resided and practiced medicine, stating, within their own knowledge, the name of the applicant, the length of time they have known him or her, his or her residence, the length of time he or she has resided there, and, if applicant shall have practiced medicine in Arizona, the length of time and place or places where he or she has so practiced, and that the applicant is a person of good moral character. If the applicant shall have received a certificate under the provisions of paragraph 3529, Revised Statutes of Arizona, 1901, or shall have passed a satisfactory examination prescribed by an Act of the Legislative Assembly of the Territory of Arizona, entitled, "An Act to amend an Act to regulate the practice of medicine in Arizona," approved March 18, 1897; or, if the applicant shall have practiced medicine within the Territory of Arizona continuously for five successive years next preceding the date fixed for the taking effect of this Act, he or she shall present with his or her application proper and satisfactory evidence thereof; the applicant shall at the time of the presentation of his or her application for a license to practice medicine, pay to the secretary of the Board of Medical Examiners the sum of two (\$2) dollars. If it shall appear that the applicant has not obtained the certificate mentioned in paragraph 3529, Revised Statutes of Arizona, 1901, or passed the satisfactory examination prescribed by the provisions of an Act of the Legislative Assembly of Arizona, entitled, "An Act to amend an Act to regulate the practice of medicine in Arizona," approved March 18, 1897, and shall not have practiced medicine within this Territory continuously for five years next preceding the date fixed for the taking effect of this act, then no license shall issue to him or her, until he or she shall have upon examination by the Board, shown to the satisfaction of the Board that the applicant possesses sufficient knowledge and skill to properly practice medicine.

Sec. 5. The examination provided for in the preceding section shall be made by said Board as soon after the application shall have been presented as it may be conveniently done, and after notice to the applicant of the time and place thereof. The examination shall be conducted under such reasonable rules and regulations as the Board may prescribe therefor, and with the design and purpose of ascertaining the fitness of the applicant for the practice of medicine in this Territory.

If the applicant request it he or she shall have the privilege of being examined in the branches of the science and the practice of medicine other than physiology, anatomy, pathology, chemistry, practice, surgery, obstetrics and gynecology, by the member or members of the Board, if there be any, of the particular school of medicine specified in his or her diploma, and if the examination in such other branches be satisfactory to the members or member conducting said examination, it shall be approved by the Board and to the extent thereof be deemed to be to the Board's satisfaction. Before any examination the applicant shall pay to the secretary of the Board, in addition to the fee hereinbefore required, the further fee of ten (\$10.00) dollars.

Sec. 6. When it shall be made to appear to the satisfaction of the Board that the applicant possesses the qualifications in this Act prescribed to fit him or her to practice medicine in this Territory, and that he or she has complied with the provisions of this Act, a license shall thereupon issue to the applicant. The license shall be signed by the president and countersigned by the secretary of the Board, and have impressed upon it the seal adopted by the Board. It shall recite that the person therein named has complied with the provisions of this Act, and that he or she is entitled to practice medicine in the Territory of Arizona, and shall be in such form as the Board may adopt.

Sec. 7. Upon proper proof to the Board of Medical Examiners of Arizona that the holder of any licenses issued under the provisions of this Act has been guilty, since the issuance thereof, of any grossly immoral or unprofessional conduct, or of any other conduct rendering him or her unfit to practice medicine in this Territory, or has been convicted of any felony, said Board shall, after due notice to such holder and full opportunity to him or her to defend against or refute such charges, revoke and cancel such license, and it shall thereafter be unlawful for such person to practice medicine in this Territory until he or she shall again be licensed thereto under the provisions of this Act.

Sec. 8. The members of the Board of Medical Examiners of Arizona shall receive for their compensation and reimbursement of all expense incurred by the Board or its members in the discharge of the duties imposed by this Act, the fees paid by the applicants for license and examination, the same to be apportioned and applied by the Board.

Sec. 9. The secretary of the Board shall keep a register of those to whom license to practice shall be issued under the provisions of this Act. Such record shall be kept in a substantially bound book, in which shall be entered in alphabetical order the name of licensees, their place of business, the date of issuance of license, and such other memoranda as the Board may direct. The secretary shall also keep a proper and accurate account of all moneys received and disbursed by him. He shall

also properly endorse, file and safely keep all applications for license and accompanying papers, and papers used in the examination of applicants for license, and turn over all said books and papers to his successor in office.

Sec. 10. Any person shall be regarded as practicing medicine within the meaning of this Act who shall within this Territory, (a) by advertisement, or any notice, sign or other indication, or by any statement, printed, written or oral, in public or in private, made, done or procured by himself or herself, or any other, at his or her request, for him or her, claim, announce, make known or pretend his or her ability or willingness to diagnose, or prognosticate any human diseases, ills, deformities, defects, wounds or injuries; (b) or who shall so advertise or make known or claim his or her ability and willingness to prescribe or administer any drug, medicine, treatment, method or practice, or to perform any operation, manipulation, or apply any apparatus or appliance for cure, amelioration, correction, reduction or modification of any human disease, ill, deformity, defect, wound or injury, for hire, fee, compensation or reward, promised, offered, expected, received or accepted, directly or indirectly; (c) or who shall within this Territory diagnose or prognosticate any human diseases, ills, deformities, defects, wounds or injuries, for hire, fee, reward or compensation, promised, offered, expected, received or accepted, directly or indirectly; (d) or who shall within this Territory prescribe or administer any drug, medicine, treatment, method or practice, or perform any operation or manipulation, or apply any apparatus or appliance for the cure, alleviation, amelioration, correction, reduction or modification of any human disease, ill, deformity, defect, wound or injury, for hire, fee, compensation or reward, promised, offered, expected, received or accepted, directly or indirectly; (e) or who shall act as the agent of any person, firm or corporation, in the practice of medicine as hereinbefore set forth; (f) except it be in the advertisement or practice of dentistry, midwifery or pharmacy, or in the usual business of opticians, or of vendors of dental or surgical instruments, apparatus and appliances.

Sec. 11. The provisions of this Act shall not be construed to modify or in any wise to affect the provisions of the laws of this Territory relating to the practice of dentistry.

Sec. 12. Any person or persons violating any of the provisions of this Act, upon conviction thereof, shall be fined in any sum not less than one hundred (\$100) dollars nor more than one thousand (\$1,000) dollars, or by imprisonment in the county jail for a period of not less than three months nor more than one (1) year, or both such fine and imprisonment at the discretion of the courts.

Sec. 13. All laws in conflict or inconsistent with this Act are hereby repealed.

Sec. 14. This Act shall be in force and effect from the date of its approval by the Governor; provided, however, that persons having already complied with previous laws regulating the practice of medicine in the Territory of Arizona shall have until the first day of June, 1903, within which to file their applications for license and procure same, and until such time no penalty shall be imposed upon such lawful practitioners for a violation of the provisions of this Act.

EUGENE S. IVES,

President of the Council.

THEODORE T. POWERS,

Speaker of the House.

Approved March 19, 1903.

ALEXANDER O. BRODIE, Governor.

RULES ADOPTED BY THE BOARD OF MEDICAL EXAMINERS OF ARIZONA UNDER THE LAWS OF 1903.

1. Examinations will be held in Phoenix on the first Monday in January, April, July and October, lasting two days.
2. Examinations will be conducted in writing in the English language.
3. Examinations consist of ten questions in each of the following branches with a time limit as here given: (1) Anatomy, 2 hours; (2) Surgery, 2 hours; (3) Gynecology, 2 hours; (4) Obstetrics, 2 hours; (5) Practice, 2 hours; (6) Physiology, 1½ hours; (7) Pathology, 1½ hours; (8) Chemistry, 1 hour; (9) Materia Medica and Therapeutics, 1 hour.
4. In order to be admitted to practice, the applicant must obtain a total average of 75 per cent, provided that in no branch shall the percentage be less than 60.
5. The examination fee is payable in advance, on the first day of the examination.
6. Candidates once rejected may appear at the next regular meeting of the Board, with the special permission of the Board only. The applicant must pay full fee for the next examination.
7. Diploma and affidavits required by law must be presented to the Secretary before the examination is started. Blank affidavits will be furnished by the Secretary upon request.
8. No applicant known to be an habitual user of morphine or cocaine or other narcotic drug will be examined.
9. Any applicant presenting himself under the influence of alcoholics will not be examined.
10. Any candidate detected trying to give or obtain aid shall be instantly dismissed from the room, and his or her paper for the entire examination canceled.
11. Handwriting of applicants must be legible.

LIST OF PHYSICIANS

ARRANGED ALPHABETICALLY BY POSTOFFICES.

For Corrections and Names Received Too Late for Regular Insertion, see Supplement. Refer to Index for Location.

ABBREVIATIONS:

R, Regular; H., Homoeopathic; Ecl., Eclectic; P. M., Physio-Medical; *, No report received; ‡, Holds certificate of Examining Board; †, Legally authorized under the "years of practice" section of the act; †, Dentist; R. D. 1, Rural Free Delivery No. 1.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 143-189) indicates the college of graduation, and the last number the year in which diploma was granted.

ARKANSAS.

CAPITAL, LITTLE ROCK.

Population of State, 1,421,574.

(U. S. Census Bureau, 1906.)

Number of Physicians, 2,445.

Arkansas, so called from the Arkansas tribe of Indians, was originally embraced in the territory of Louisiana, and was purchased in 1803 from the French government by Thomas Jefferson. It became a territory March 2, 1819, and was admitted as a state June 15, 1836. It is bounded on the north by Missouri, east by the Mississippi river, south by Louisiana and Texas and west by Texas and the Indian Territory. It lies between north latitude 33 degrees and 36 degrees 30 minutes, and between west longitude 89 degrees 45 minutes and 94 degrees 40 minutes. The greatest length from north to south is 242 miles and from east to west 275 miles. The eastern part of the state, embracing a portion of the Mississippi valley, consists principally of a rich alluvial plain, watered by numerous lagoons. The middle section is intersected by the Ozark mountains, dividing the state into two unequal portions, each possessing distinct climatic features. The principal rivers are the Mississippi, forming the eastern boundary, the Arkansas, the St. Francis, the White, the Ouachita and the Red, making over 1,500 miles of navigable streams. The climate is mild, the mean annual temperature in the northern portion being about 58 degrees, in the central 61 degrees, and in the southern 64 degrees. The northwestern part on is the coldest and the southeastern the hottest. The rainfall varies from 54 inches in the southeast to 40 in the northwest.

The population of the state according to the U. S. census of 1900 is 1,311,564, as against 1,128,179 in 1890, representing an increase since 1890 of 183,385, or 16.25 per cent. The following table shows the increase in population for 80 years:

1820.....	14,255	1870.....	484,471
1830.....	30,388	1880.....	802,525
1840.....	97,574	1890.....	1,128,179
1850.....	209,897	1900.....	1,311,564
1860.....	435,450		

The total land surface of Arkansas is, approximately, 53,045 square miles.

Hot Springs, a well-known health resort, is noted for its many mineral springs, varying from 75 to 157 degrees in temperature and having great curative powers in rheumatic and scrofulous diseases. Eureka Springs is also favorably known for the medicinal qualities of its waters. In addition to these there are a number of other mineral springs in the state.

MEDICAL LAW OF ARKANSAS.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE AND SURGERY, AND PROVIDING FOR THE APPOINTMENT OF THREE BOARDS OF STATE MEDICAL EXAMINERS, AND DEFINING THEIR DUTIES.

Be it enacted by the General Assembly of the State of Arkansas:

Section 1. That the medical examiners herein provided for shall consist of three Boards: One of physicians and surgeons, recommended by "The Homeopathic Medical Society of Arkansas;" one of physicians and surgeons, recommended by "The Arkansas State Eclectic Medical Society;" and one of physicians and surgeons, recommended by "The Arkansas Medical Society."

There shall be seven (7) members of each Board, appointed so as to have one member from each congressional district upon each Board. The appointment shall be made by the Governor from a list of names presented by the respective medical societies.

Sec. 2. That the members first appointed on the Boards shall be divided into two (2) classes; the first class to consist of four (4) members appointed for two (2) years; the second class of three (3) members shall be appointed for four (4) years, and thereafter all appointments shall be for four (4) years.

Vacancies in the said Boards shall be filled as they occur by appointments from lists furnished as provided. No member shall be appointed for more than two terms in succession; and no member, or professor, or teacher in a medical college or school, or university, having a medical department, shall be appointed upon the Board.

Sec. 3. Within thirty days after their appointments, the respective Boards shall meet and organize by electing a president, secretary and treasurer of their respective Boards.

The treasurer of each of the said Boards shall give bond in such amount as may be designated by the Board, conditioned for the faithful disbursement of all moneys coming into his hands as such treasurer.

Each of the said Boards shall have a common seal. The president and secretary shall have power to administer oaths for the purposes of this act. The members of the Boards shall, before entering upon the discharge of their duties, take the oath prescribed by the Constitution of this State for State officers.

Sec. 4. The said Boards shall hold four regular stated meetings per year, to-wit: The second Tuesdays in January, April, July and October, at such places as a majority may agree upon, consulting the convenience of the Boards and applicants for examination and certificates.

Special meetings may be held upon the call of the president whenever it is deemed necessary or expedient. Said Boards shall keep a record of their proceedings, together with a correct list of all applicants for license to practice medicine, in any of its branches, with name, sex, color, age, nativity; time spent in the study of medicine, and, if possessing a diploma, the name and locality of the institution granting same, stating the system of medicine followed by each.

This record shall also state whether the applicant was rejected or licensed; said record shall be prima facie evidence of all matters required to be kept therein, and a certificate issued under the seal of said Board, and signed by the president and secretary thereof, and shall be prima facie evidence in any of the courts of this State of any matter appearing upon said records.

Sec. 5. The Boards shall be styled and known as the "Homeopathic State Medical Board," the "Eclectic State Medical Board," and the "State Medical Board of the Arkansas Medical Society."

The "Homeopathic State Medical Board" shall examine all applicants who propose to practice the homeopathic system of medicine; the "Eclectic State Medical Board" shall examine all applicants who propose to practice the eclectic system of medicine; and the "Board of Arkansas Medical Society" shall examine all other applicants.

The Boards shall act separately and independently of each other, and wherever this act refers to and defines the duties of the Board, it shall be construed as referring to their acting separately, as well as independently of each other.

Sec. 6. Every person now practicing medicine in this State shall, within ninety days after the passage of this act, prepare a written statement, giving his name, postoffice address and county; when and where he received authority to practice medicine in this State; where his diploma or certificate is on record; and, if a diploma, from what school or medical college issued; such statement shall be sworn to before some officer authorized to administer oaths, and shall be forwarded to the secretary of the Board representing his school of medicine.

If it shall appear from such statement that such person was regularly authorized to practice medicine under the then existing laws, the said Board shall register the name of such person in their list of accredited physicians, and issue to such person a certificate that his name has been placed upon such list. If it shall appear from the statement that such person has not been legally authorized to practice medicine,

or that his diploma is not from a reputable medical school or college, or, if from any other source of information, it shall appear that the statement is false, the Board shall refuse to issue to such a person a certificate, and shall notify such person in writing of their refusal and the reason therefor. If such person shall show to the satisfaction of the Board by affidavits or otherwise that he has complied with the laws of this State regulating the practice of medicine, they shall in that event issue to him a certificate. Upon the failure of such person to make the proof required by this section, he shall, before continuing in the practice, make application and stand examination required by the following provisions of this act.

Sec. 7. Any person who shall wilfully and knowingly make any false statement to the Board concerning his authority to practice medicine shall be deemed guilty of perjury and punished, as now provided by law for those found guilty of perjury, and may be indicted and tried for such offense, either in the county where the affidavit to such statement was made, or where such person resides.

Sec. 8. Every person residing in this State, or coming into it, of the age of twenty-one years, who has not heretofore been licensed to practice medicine under the existing laws, making application to register under the provisions of this act for the purpose of practicing medicine and surgery in this State, shall first make application to the Secretary of the Board, and his application shall be accompanied by a fee of ten (\$10) dollars, this fee being for examination and registration before this Board. Such examination may be written or oral at the discretion of the Board, and shall be elementary and of a practical character, including anatomy, physiology, chemistry, materia medica, theory and practice of medicine, surgery and obstetrics.

If, in the opinion of the Board, the applicant possesses the necessary qualifications, the Board shall issue to him a certificate.

Sec. 9. Every person receiving a certificate from the Board, whether practicing now or hereafter licensed to practice, shall have such certificate recorded in the office of the County Clerk where he is practicing or proposes to practice; and, when such person moves to another county for the purpose of continuing the practice of medicine, he shall file for record with the County Clerk of the County to which he moves, a certified copy of his certificate.

Sec. 10. That to prevent delay and inconvenience any member of the Board applied to may grant an applicant a temporary permit to practice, upon the payment of the fee required of applicants, and after a satisfactory examination, such permit shall not continue in force longer than until the next regular meeting of the Board and shall in no case be granted within six months after the applicant has been refused a certificate by the Board.

No additional fee shall be charged the applicant by the Board who has previously paid the amount for a temporary permit. All amounts paid to members of the Boards for temporary permits shall be by such members paid to their respective treasurers.

Sec. 11. Every person who shall practice, or shall attempt to practice medicine in any of its branches, or who shall perform or attempt to perform any surgical operation for any person, or upon any person within this State without first having complied with the provisions of this act, shall be deemed guilty of misdemeanor, and upon the conviction thereof shall be punished by a fine of not less than twenty-five (\$25) dollars, nor more than five hundred (\$500) dollars; or by imprisonment in the county jail for a period of not less than ten days, nor more than ninety days; or by both fine and imprisonment; and each day of such practice shall constitute a separate offense.

Provided, however, That this shall not apply to persons now engaged in the practice of medicine until ninety days after passage of this act, the time allowed them for procuring their certificate.

Sec. 12. Any itinerant vendor of any drug, nostrum, ointment or application of any kind, intended for the treatment of disease or injury, or, who may, by writing, print or other methods, profess to cure or treat diseases or deformity by any drug, nostrum, manipulation, or other expedient, in this State, shall be deemed to be in violation of this law and punished as provided. This does not apply to persons who obtain certificates as herein provided.

Sec. 13. Any person shall be regarded as practicing medicine, in any of its departments, within the meaning of this act, who shall append M. D. or M. B. to his name; or repeatedly prescribe or direct for the use of any person or persons, any drug or medicine or other agency for the treatment, cure, relief of any bodily injury, deformity or disease.

Provided, That nothing in this act shall be construed as to prevent any person from administering domestic remedies without receiving any compensation therefor, and nothing herein shall apply to the so-called midwives.

Sec. 14. The Secretary of the Board shall provide the Board with blank books, certificates, and such stationery as is necessary for the transaction of the business pertaining to their duties. All money received by the Board shall be disbursed by the treasurer upon the warrant of the secretary, countersigned by the president of the Board.

The members of the Board shall receive as a compensation for their services the sum of ten (\$10) dollars per day for every day actually engaged in the discharge of their duties under this act, and the secretaries shall receive such additional salary as may be fixed and agreed upon by the Boards.

The members of the Board shall pay their own traveling expenses and hotel bills. The members of the Boards shall look to and be dependent entirely upon the fees provided for herein for their compensation, and all other expenses in connection with their duties.

It shall not be lawful for the said Boards, or any members thereof, in any manner whatever, or for any purpose, to charge or obligate the State for the payment of any money whatever. If, after paying all legitimate obligations of the Board, for stamps, printing, salary of secretary, etc., there should not be sufficient sums on hand to pay each member his per diem in full, the amount shall be prorated; but, if, at the end of the year, there should be a greater revenue than sufficient to meet all obligations, such surplus shall remain in the treasury to be used in expenditures of the Boards during the succeeding year.

Sec. 15. The Boards shall annually file with the Governor a report of their transactions during the year, giving the names of all to whom they have granted certificates during the year, naming the system of medicine practiced by each, and shall in such report show the amount of money received; and from what source, the amount expended, and for what purpose, and shall embody in their report any other matters or facts deemed expedient, and make such recommendations for the improvement of the practice of medicine in this State as may be deemed advisable.

If the Boards shall have sufficient funds on hand to pay for same, they shall have said reports printed in pamphlet form and furnish each physician in this State with a copy thereof.

Sec. 16. All laws or parts of laws in conflict with this act are hereby repealed, and this act shall take effect and be in force 90 days after its passage.

Approved February 17, 1903.

THE GANT LAW.

Be It Enacted by the General Assembly of the State of Arkansas:

Section 1. That any physician, surgeon, or person engaged in the practice of medicine in the State, for the purpose of procuring patients, employ any solicitor, capper or drummer, or shall subsidize or employ any hotel or boarding house, or advertise his business or remedies by untruthful or improbable statements made in his advertisements, circulars or cards, or who shall obtain any fee or compensation from any one by any assurance or promise that a manifestly incurable disease is curable, or who shall wilfully betray or expose any professional secret learned by him from his patient or patron, to the detriment of such patient or patron, or who shall become a habitual drunkard and continue the practice of medicine or surgery while such habitual drunkard, or administer any medicine or perform any operation while drunk, shall be deemed guilty of a misdemeanor, and on conviction be punished by a fine of not less than twenty-five dollars (\$25) and not more than two hundred dollars (\$200), and by a revocation of his license to practice medicine and surgery, which such revocation shall be adjudged and pronounced by the same court in which he is tried and convicted, and at the same time.

Sec. 2. That whenever any physician and surgeon, or person engaged in the practice of medicine or surgery in this State, shall be convicted of any crime and misdemeanor, involving moral turpitude, in addition to the other penalty or penalties imposed upon him, shall be added a revocation of his license to practice medicine and surgery.

Sec. 3. That if any physician or surgeon or other person engaged in the practice of medicine shall commit the crime of abortion, or aid or abet in the commission thereof; provided, this section shall not apply to any abortion produced by any regular practicing physician, for the purpose of saving the mother's life, he shall be adjudged guilty of a felony and punished by imprisonment in the State penitentiary for a period of not less than one year nor more than five years, and his license to practice shall be revoked.

Sec. 4. That any physician and surgeon or person whose license to practice shall, on conviction under the provisions of this act, have his license revoked, may appeal from the judgment of conviction, but shall not, pending the appeal, be permitted to practice either medicine or surgery, and that if he does so practice, or attempts or offers to so practice pending the appeal, he shall be punished in the same manner and to the same extent as if he had never had any license to practice.

Sec. 5. That after the expiration of one year from date of the revocation of the license of any physician and surgeon, under this act, he may appeal to the proper medical board for a new license, and may be re-licensed, if he shall satisfy the board that he is qualified, has reformed and is worthy.

Sec. 6. That all laws and parts of laws in conflict herewith are hereby repealed, and this act shall take effect and be in force from and after its passage.

Approved April 29, 1903.

ACT 219.

AN ACT to amend "An Act to regulate the practice of medicine and surgery, and providing for the appointment of three Boards of State Medical Examiners, and defining their duties," approved February 17, 1903.

Be It Enacted by the General Assembly of the State of Arkansas:

Section 1. That Sections three, four, five, eight, ten and sixteen of an Act to regulate the practice of medicine and surgery, and providing for the appointment of three Boards of State Medical Examiners, and defining their duties, approved February 17, 1903, be amended and re-enacted to read as follows:

"Sec. 3. Within thirty days after their appointment the respective Boards shall meet and organize by electing a President, Secretary and Treasurer of their respective Boards.

"The Treasurer of each of the said Boards shall give bond in such amount as may be designated by the Board, conditioned for the faithful disbursement of all moneys coming into his hands as such Treasurer.

"Each of the said Boards shall have a common seal. The President and Secretary shall have power to administer oaths for the purpose of this Act, and the Boards shall make and adopt all necessary rules, regulations and by-laws not inconsistent with the laws of this State, or of the United States, whereby to perform the duties and to transact the business required under the provisions of this Act. The members of the Board shall, before entering upon the discharge of their duties, take the oath prescribed by the Constitution of the State for the State officers.

"Sec. 4. The said Boards shall hold two regular stated meetings per year, to-wit: The second Tuesdays in May and November, and at such places as a majority may agree up, consulting the convenience of the Boards and applicants for examination and certificates.

"Sec. 5. The Boards shall be styled and known as the 'Homeopathic Medical Board,' 'The Eclectic State Medical Board' and 'The State Medical Board of the Arkansas Medical Society.' The Homeopathic State Medical Board shall examine

all applicants who have graduated from Homeopathic medical schools; the Eclectic State Medical Board shall examine all applicants who have graduated from Eclectic medical schools; and the State Medical Board of the Arkansas Medical Society shall examine all other applicants.

The Boards shall act separately and independently of each other, and whenever this Act refers to and defines the duties of the Board, it shall be construed as referring to their acting separately, as well as independently of each other.

"Sec. 8. Every person residing in this State, or coming into it, of the age of twenty-one years, who has not heretofore been licensed to practice medicine under the existing laws, making application to register under the provisions of this Act for the purpose of practicing medicine in this State, shall first make application to the Secretary of the Board representing the school of medicine from which he graduated, and his application shall be accompanied by a fee of fifteen dollars, this fee being for examination and registration before the Boards. The applicant shall present to the Board satisfactory evidence of graduation from a reputable medical school, and a school shall be considered reputable within the meaning of this Act whose entrance requirements and course of instruction are as high as those adopted by the better class of medical schools of the United States. Such examinations may be written or oral, and shall be of a practical character and conducted on the scientific branches only, and shall include anatomy, physiology, medical chemistry, materia medica, therapeutics, theory and practice of medicine, pathology, bacteriology, surgery, obstetrics, gynecology and hygiene. All questions and answers, with grades attached, shall be preserved by the Secretary for one year. If, in the opinion of the Board, the applicant possesses the necessary qualifications, the Board shall issue to him a certificate. The Boards may, at their discretion, arrange for reciprocity in license with the authorities of States and Territories having requirements equal to those established by the Boards, and every person desiring license under reciprocity must make application to the Secretary of the Board representing the school of medicine from which he graduated. License may be granted applicants for license under such reciprocity on payment of twenty-five dollars.

"The Boards may refuse to grant or may revoke a license for the following causes, to-wit:

- "(A) Chronic and persistent inebriety.
- "(B) The practice of criminal abortion, either as principal or abettor.
- "(C) Conviction of the crime involving moral turpitude.
- "(D) Publicly advertising special ability to treat or cure chronic and incurable diseases.

"(E) The representation to the Board of any license, certificate or diploma which was illegally or fraudulently obtained, or the practice of fraud or deception in passing the examination. In complaints for violating the provisions of this Section, the accused person shall be furnished with a copy of the complaint, and given a hearing before said Board in person, or by attorney, and any person after such refusing or revocation of license, who shall attempt and continue the practice of medicine, shall be subject to the penalties hereinbefore described.

"Sec. 10. That to prevent delay and inconvenience any member of the Board applied to, provided that the Board applied to represents the school of medicine from which the applicant graduated, may grant a temporary permit to practice upon the payment of the fee required for applicants, and after a satisfactory examination; such permit shall not continue in force longer than the next regular stated meeting of the Board, and shall not be granted for a longer period than two months in advance of the next regular and stated meeting of the Board.

"Sec. 16. That all laws and parts of laws contrary to and in conflict with any of the provisions of this Act be, and the same are hereby repealed, and this Act shall take effect and be in force in ninety days after passage."

Approved May 6, 1909.

THE SANTA BARBARA SANITARIUM

In The Garden Spot of The World

In front of the Sanitarium

Patients will find here at Santa Barbara the most delightful climate the year round, and everything can be accomplished in the restoration of nervous energy that can be secured anywhere.

Where, for some reason one does not care to take treatment in the sanitarium, arrangements can be made to house the guests in private families, and still receive the attention of the sanitarium physician.

Correspondence is desired with those who are desirous of finding a true haven of rest.

MONTE VIDA SANATORIUM FOR TUBERCULOSIS.

It is the only institution of its kind in Santa Clara County and the neighborhood of San Francisco, which is 49 miles distant. The Sanatorium is situated in the foothills of the famous Mt. Hamilton Range, at an elevation which is considered ideal. It overlooks the city of San Jose, and is bounded by and 600 feet above the noted Alum Rock Park. The electric cars from San Jose run close by with a twenty-minute service in summer and forty-minute in winter.

Open-air cottages are provided for sleeping, and these are supplied with stove and running water. There are beautiful walks through the park and the mineral baths and waters may be used if so prescribed by the physician. All the latest and improved methods for treatment of consumption are here used. It is a fact that a moderate temperature, pleasant and hygienic surroundings, proper food and medical attention are the essentials for the cure of tuberculosis.

Doctor Amy G. Bowen, San Jose, Cal., is the owner and manager of the Sanatorium.

The Ideal
Family Resort

HOUGH SPRINGS

LAKE CO.,
CALIFORNIA

The elevation is sufficient for one to appreciate the fragrance of the pines, yet not so high as to feel the chill in the evenings that a high altitude gives.

The Mineral Waters cannot be surpassed. They consist principally of magnesia, soda, iron and sulphur springs, and are splendid in cures of diseases of the stomach, liver, kidneys, rheumatism, skin diseases, malaria, and general debility. The main Soda Spring is one of the wonders of Nature.

For the accommodation of guests the management have fitted up Hot Mineral Baths.

CALIFORNIA.

CAPITAL, SACRAMENTO.

Population of State, 1,648,049.

(U. S. Census Bureau, 1906.)

Number of Physicians, 4,685.

California, the second largest state in the Union, was ceded to the United States by the treaty of peace which terminated the war with Mexico in 1848, and was admitted as a state in 1850. It extends from 32 degrees 34 minutes to 42 degrees N. latitude, and from 114 degrees 8 minutes to 124 degrees 24 minutes W. longitude, and is bounded on the north by Oregon, on the east by Nevada and Arizona, on the south by Mexico, and on the west by the Pacific ocean. It comprises an area of 188,981 square miles, or 120,947,840 acres. It is naturally divided into four distinct regions: 1. The Coast Ranges; 2. The Sierra Nevada; 3. The Central Valley; 4. The Southwestern Region. California has but two large rivers, the Sacramento and San Joaquin, which traverse the Great Central Valley in opposite directions and empty into Suisun Bay, and the Klamath and Salinas and numerous smaller streams drain the state. The climate of California varies considerably in different portions, the mean annual temperature in the north being below 50 degrees F., while in the southeastern portion it exceeds 70 degrees F. The mean annual temperature of San Francisco for a period of eleven years was 55.23, and at Fort Yuma for a corresponding period, 74.77. In San Francisco rain falls freely during November and December, and the hottest months are September, October, August and July, in the order named.

The interior of the state, not being influenced by the sea, has a continental climate, and the greater the distance from the ocean the colder the nights and the warmer the days. The average annual rainfall increases from S. to N., and in the Sierra Nevada with the altitude; in Fort Yuma it is but 4 inches; in San Diego, 9.16; in Sacramento, 19.56; in San Francisco, 21.69; and in the Sierra, at an altitude of 5,000 feet, 45 inches and more.

The state has as valuable mineral springs as can be found anywhere, rivaling the famous spas of Europe. Dr. Winslow Anderson, in his work "Mineral Springs and Health Resorts of California," says:

"In California we have over two hundred cold and hot mineral springs, ranging from the cool, delicious, effervescent soda and sparkling vichy to the ferruginous, saline, alkaline and sulphurous wells, ever ready and overflowing, to be utilized for the healing of the 'many ills to which the flesh is heir.'"

"When our California springs become more generally known, and their similarity to the famous European spas is better understood, our invalids may not find it necessary to undertake the long, tedious, expensive, and in many instances hazardous journey, when they can find right here in California, at their very doors,

as it were, almost the identical waters, with all the conveniences and luxurious accommodations found abroad, and with the additions of a variety of food products and a pure, dry and balmy atmosphere, and an invigorating and stimulating climate unequaled in any other country in the world."

The following shows the increase in population for fifty years:

1850.....	92,597	1880.....	864,694
1860.....	370,994	1890.....	1,208,130

CALIFORNIA STATE MEDICAL LAW.

The People of the State of California, represented in Senate and Assembly, enact as follows:

Section 1. The governor shall appoint a board of medical examiners to be known as the board of medical examiners of the State of California, consisting of eleven members. Such appointments shall be made from separate lists presented to him every second year; five members from a list of ten names presented by the medical society of the State of California, two members from a list of four names presented by the California state homeopathic medical society, two members from a list of four names presented by the eclectic medical society of the State of California, and two members from a list of four names presented by the osteopathic association of the State of California. Vacancies occurring in the representation of said societies, respectively, shall be filled by appointment from said lists. The appointment of each member shall be for a term of two years, and until his successor is appointed and qualified, provided, however, that no professor, instructor, or other person in any manner connected with, or financially interested in any college or school of medicine or surgery or osteopathy shall be appointed a member of said board. It shall require the affirmative vote of seven members of said board to carry any motion or resolution to adopt any rule to pass any measure or to authorize the issuance of any certificate as in this act provided.

Sec. 2. Each member of said board, shall, before entering upon the duties of his office, take the constitutional oath of office, and shall, in addition, make oath that he is a graduate in medicine and surgery, or osteopathy, and a licensed practitioner of medicine and surgery, or of osteopathy, of this state.

Sec. 3. Said board shall organize on or before the first Tuesday of May, 1907, by electing from its number a president, vice-president, secretary and treasurer, who shall hold their respective positions during the pleasure of said board. Said board shall hold its regular meetings in the city and county of San Francisco on the first Tuesday of April, August, and December of each year, with power of adjournment from time to time until its business is concluded; provided, however, that examinations of applicants for certificates may, in the discretion of the board, be conducted in any part of the state designated by the board. Notice of each regular meeting of the board shall be given by publication twice a week for each of the two weeks next preceding each meeting, in two daily papers published in the city of San Francisco, in one daily paper published in the city of Sacramento, and one daily paper published in the city of Los Angeles, which notice shall also specify the time and place of holding the examination of applicants. Special meetings of the board may be held at such time and place as the board may designate, and the same notice thereof shall be given as in case of regular meetings. Said board shall receive through its secretary applications for the certificates provided to be issued by this act, and shall on or before the first day of January of each year transmit to the governor a full report of all its proceedings, together with a report of its receipts and disbursements.

Sec. 4. The office of said board shall be in the city and county of San Francisco, and in all legal proceedings against the board the said city and county shall be deemed to be the residence of the members thereof.

Sec. 5. Said board may from time to time adopt such rules as may be necessary to enable it to carry into effect the provisions of this act. Any member of said board may administer oaths in all matters pertaining to the duties of said board, and the board shall have authority to take evidence in any matter cognizable by it.

Sec. 6. Three forms of certificates shall be issued by said board under the seal thereof and signed by the president and the secretary: First, a certificate authorizing the holder thereof to practice medicine and surgery; second, a certificate authorizing the holder thereof to practice osteopathy; third, a certificate authorizing the holder thereof to practice any other system or mode of treating the sick or afflicted not referred to in this section.

In order to procure a certificate to practice medicine and surgery, the applicant for such certificate must file with said board at least two weeks prior to a regular meeting thereof, satisfactory testimonials of good moral character, and a diploma issued by some legally chartered medical school, the requirements of which shall have been at the time of granting such diploma in no particular less than those prescribed by the Association of American Medical Colleges for that year, or satisfactory evidence of having possessed such diploma, and he must also file with said diploma an application sworn to before some person authorized to administer oaths, and attested to by the hand and seal of such officer, if he have a seal, stating that he is the person named in said diploma, that he is the lawful holder thereof, and that the same was procured in the regular course of instruction and examination, without fraud or misrepresentation. The said application shall be made upon a blank furnished by said board, and it shall contain such information concerning the medical instruction and the preliminary education of the applicant as said board may by rule provide. Applicants who have failed to meet the above requirements must be rejected. Applicants for a certificate to practice osteopathy shall be subject

to the above regulations, except that in place of the diploma hereinbefore referred to, they shall be required to file a diploma from a legally chartered college of osteopathy, having a course of instruction of at least twenty months, requiring actual attendance, and after 1908, of three years of nine months each, and including the studies examined upon under this act. Applicants for a certificate to practice any other system or mode of treatment not in this act referred to, shall be subject to the above regulations, except that in place of the diplomas hereinbefore referred to, they shall be required to file a diploma from a legally chartered college of the system or mode of treatment which the applicant claims or intends to follow.

In addition to the requirements above set forth, all applicants for a certificate must be personally examined by said board as to their qualifications. The examination shall be conducted in the English language, shall be practical in character and designed to discover the applicant's fitness to practice his profession, and shall be, in whole or in part, in writing on the following fundamental subjects, to wit: Anatomy, histology, gynecology, pathology, bacteriology, chemistry and toxicology, physiology, obstetrics, general diagnosis, hygiene. Examinations in each subject shall consist of not less than ten questions, answers to which shall be marked upon a scale of zero to ten. But all applicants must obtain not less than a general average of seventy-five per cent, and not less than sixty per cent. in any one subject; provided, that applicants who can show at least ten years of reputable practice shall be granted a credit of five per cent. upon the general average, and five per cent. additional for each subsequent ten years of such practice.

The examination papers shall form a part of the records of the board and shall be kept on file by the secretary for a period of one year after each examination. In said examination the applicant shall be known and designated by number only, and the name attached to the number shall be kept secret until after the board has finally voted upon the application. The secretary of the board shall in no instance participate as an examiner in any examination held by the board.

Sec. 7. Each applicant on making application shall pay to the secretary of the board a fee of twenty-five (25) dollars, which shall be paid to the treasurer of the board by said secretary. In case the applicant's credentials are insufficient, or in case he does not desire to take the examination, the sum of ten (10) dollars will be retained, the remainder of the fee being returnable on application.

Sec. 8. Said board shall keep an official record of all its proceedings, a part of which record shall consist of a register of all applicants for certificates under this act, with the result of each application. Said record shall be evidence of all the proceedings of said board which are set out therein.

Sec. 9. Every person holding a certificate authorizing him to practice medicine and surgery, or osteopathy, or any other system or mode of treating the sick or afflicted, in this state, must have it recorded in the office of the county clerk of the county in which the holder of said certificate is practicing his profession, and the fact of such recording shall be endorsed on the certificate by the county clerk recording the same. Every such person, on each change of his residence, must have his certificate recorded in the county to which he shall have changed his residence. The absence of such record shall be prima facie evidence of the want of possession of such certificate. And any person holding a certificate who shall practice medicine or surgery, or osteopathy, or any other system or mode of treating the sick or afflicted, in this state, or attempt to practice medicine or surgery or osteopathy, or any other system or mode of treating the sick or afflicted, in this state, without first having filed his certificate with the county clerk as herein provided, shall be deemed guilty of a misdemeanor and shall be punished by a fine of not less than twenty-five dollars nor more than one hundred dollars, or by imprisonment for a period of not less than thirty days nor more than sixty days, or by both such fine and imprisonment.

Sec. 10. The county clerk shall keep, in a book provided for the purpose, a complete list of the certificates recorded by him, with the date of the record; and said book shall be open to public inspection during his office hours.

Sec. 11. Said board must refuse a certificate to any applicant guilty of unprofessional conduct; but before such refusal the applicant must be cited by citation, signed by the secretary of the board, and sealed with its seal. No such citation shall be issued except upon a sworn complaint filed with the secretary of the board, charging the applicant with having been guilty of unprofessional conduct, and setting forth the particular acts constituting such unprofessional conduct. On the filing of such complaint the secretary must forthwith issue a citation and make the same returnable at the next regular session of said board, occurring at least thirty days next after filing the complaint. Such citation shall notify the applicant of the time and place, when and where the matter of said unprofessional conduct shall be heard, the particular unprofessional conduct with which the applicant is charged, and that the applicant shall file his written answer, under oath, within twenty days next after the service on him of said citation, or default will be taken against him, and his application for a certificate refused. The attendance of witnesses at such hearing shall be compelled by subpoenas issued by the secretary of the board, under its seal; and said secretary shall in no case refuse to issue any such subpoena, upon a fee of twenty cents being paid him for each subpoena. Said citation and said subpoenas shall be served in accordance with the statutes of this state then in force as to the service of citations and subpoenas generally, and all provisions of the statutes of this state then in force relating to subpoenas are hereby made applicable to the subpoenas provided for herein. If any person refuse to obey a subpoena served upon him in accordance with the statutes of this state then in force providing for the manner of serving subpoenas, the fact of such refusal shall be certified by the secretary of said board, under the seal thereof, to the superior court of the county in which the service was had, and said court shall thereupon proceed to hear said matter in accordance with the statutes of this state then in force as to contempts for disobedience of process of the court; and should said court find that the subpoena has been legally served, and that the party so served has willfully disobeyed the same, it shall proceed to impose such penalty as provided in cases of contempt of court. In all cases of alleged unprofessional conduct arising under this act, deposition of witnesses may be taken, the same as in civil cases, and all the provisions of the statutes of this state then in force as to the taking of depositions are hereby made applicable to the taking of depositions under this act. If the applicant shall fail to file with the secretary of said board his answer, under oath, to the charges made against him, within twenty days after service on him of said citation, or within such further time as the board may give him, and the charges on their face be deemed sufficient by the board, default shall be entered against him,

and his application refused. If the charges on their face be deemed sufficient by the board, and issue be joined thereon by answer, the board shall proceed to determine the matter, to that end shall hear such evidence as may be adduced before it; and if it appear to the satisfaction of the board that the applicant is guilty as charged, no certificate shall be issued to him. No certificate shall be refused on the ground of unprofessional conduct unless the applicant has been guilty of such conduct within two years next preceding his application. Whenever any holder of a certificate herein provided for is guilty of unprofessional conduct, as the same is defined in this act, and the said unprofessional conduct has been brought to the attention of the board granting said certificate, in the manner hereinafter pointed out, or whenever a certificate has been procured by fraud or misrepresentation, or issued by mistake, it shall be their duty to, and they must, revoke the same at once, and the holder of said certificate shall not be permitted to practice medicine or surgery, or osteopathy, or any other system or mode of treating the sick or afflicted, in this state. But no such revocation shall be made unless such holder is cited to appear and the same proceedings are had as is hereinbefore provided in this section in case of refusal to issue certificates. Said secretary in all cases of revocation shall enter on his register the fact of such revocation and shall certify the fact of such revocation under the seal of the board, to the county clerk of the counties in which the certificate of the person whose certificate has been revoked, is recorded; and said clerk must thereupon write upon the margin or across the face of his register of the certificate of such person, the following: "This certificate was revoked on the _____ day of _____," giving the day, month and year of such revocation in accordance with said certification to him by said secretary. The record of such revocation so made by said county clerk shall be prima facie evidence of the fact thereof, and of the regularity of all the proceedings of said board in the matter of said revocation. From the time of the revocation of a certificate the holder thereof shall be disqualified from practicing medicine or surgery, osteopathy, or any other system or mode of treating the sick or afflicted, in this state.

The words "unprofessional conduct," as used in this act, are hereby declared to mean:

First—The procuring, or aiding or abetting in procuring a criminal abortion.

Second—The willfully betraying a professional secret.

Third—All advertising of medical business which is intended or has a tendency to deceive the public or impose upon credulous or ignorant persons, and so be harmful or injurious to public morals or safety.

Fourth—All advertising of any medicine or of any means whereby the monthly periods of women can be regulated or the menses re-established if suppressed.

Fifth—Conviction of any offense involving moral turpitude, in which case the record of such conviction shall be conclusive evidence.

Sixth—Habitual intemperance.

Seventh—The personation of another licensed practitioner of a like or different name.

Sec. 12. Said board shall have the power to employ legal counsel and clerical assistance and to fix the salaries of the same and to incur such other expenses as may be deemed necessary to carry into effect the provisions of this act. It shall also fix the salary of the secretary not to exceed the sum of twelve hundred dollars (\$1200) per annum, and the sum to be paid to other members of said board, not to exceed ten (10) dollars per diem each, for each and every day of actual service in the discharge of official duties; and said board may, in its discretion add to said sums necessary traveling expenses. All money in excess of the actual expenses of the board shall be paid annually into the state treasury.

Sec. 13. Any person who shall practice or attempt to practice or advertise or hold himself out as practicing medicine or surgery, osteopathy, or any other system or mode of treating the sick or afflicted, in this state, without having, at the time of so doing, a valid, unrevoked certificate, as provided in this act, shall be guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine of not less than one hundred (100) dollars, nor more than five hundred (500) dollars, or by imprisonment for a term of not less than sixty (60) days, nor more than one hundred and eighty (180) days, or by both such fine and imprisonment. In each such conviction the fine shall be paid, when collected, to the state treasurer, and shall constitute a special fund for the prosecution of illegal practitioners as defined in this act, the said fund to be paid to the said board upon warrants drawn therefor by its secretary, and the said board is authorized to prosecute all persons guilty of a violation of the provisions of this section.

Sec. 14. Every person filing for record, or attempting to file for record, the certificate issued to another, falsely claiming himself to be the person named in such certificate, or falsely claiming himself to be the person entitled to the same, shall be guilty of a felony, and, upon conviction thereof, shall be subject to such penalties as are provided by the laws of this state for the crime of forgery.

Sec. 15. Any person assuming to act as a member of the state board of medical examiners without so being, or who shall sign, or subscribe, or issue, or cause to be issued, or seal or cause to be sealed, a certificate authorizing any person to practice medicine or surgery, or osteopathy, or any other system or mode of treating the sick and afflicted, in this state, shall be guilty of a misdemeanor, and shall be punished by a fine of not less than one hundred dollars, nor more than five hundred dollars, or by imprisonment for a term of not less than sixty nor more than one hundred and eighty days, or by both such fine and imprisonment.

Sec. 16. Any person who holds a certificate from the board of medical examiners created by "An act for the regulation of the practice of medicine and surgery, in the State of California, and for the appointment of a board of medical examiners in the matter of such regulation," which took effect August the first, nineteen hundred and one, or from one of the boards of examiners heretofore existing, under the provisions of "An act to regulate the practice of medicine in the State of California," approved April third, eighteen hundred and seventy-six, or an act supplemental and amendatory to said act, which became a law April first, eighteen hundred and seventy-eight, shall be entitled to practice medicine and surgery, in this state, the same as if it had been issued under this act; any person who holds a certificate from the board of osteopathic examiners of the State of California, under the provisions of "An act to regulate the practice of osteopathy in the State of California, and to provide for a state board of osteopathic examiners, and to license osteopaths to practice in this state, and to punish persons violating the provisions of this act," which became a law under constitutional provisions, without the governor's approval, March ninth, nineteen hundred and one, shall be entitled to practice osteopathy in this state, the

same as if it had been issued under this act; but all certificates herein mentioned may be revoked for unprofessional conduct, and in the same manner, and upon the same grounds, as if they had been issued under this act.

Sec. 17. Nothing in this act shall be so construed as to inhibit service in the case of emergency, or to the domestic administration of family remedies; nor shall this act apply to any commissioned medical officer in the United States army, navy or marine hospital service, in the discharge of his official duties; nor to any licensed dentist when engaged exclusively in the practice of dentistry. Nor shall this act apply to any practitioner from another state or territory, when in actual consultation with a licensed practitioner of this state, if such practitioner is, at the time of such consultation, a licensed practitioner in the state or territory in which he resides; provided, that such practitioner shall not open an office or appoint a place to meet patients or receive calls within the limits of this state. Nor shall this act be construed so as to discriminate against any particular school of medicine or surgery or osteopathy, or any other system or mode of treating the sick or afflicted, or to interfere in any way with the practice of religion; provided that nothing herein shall be held to apply or to regulate any kind of treatment by prayer.

Sec. 18. Repeal. All acts, or parts of acts, in any wise conflicting with the provisions of this act, are hereby repealed.

Sec. 19. This act shall take effect from and after the first day of May, nineteen hundred and seven.

CHAPTER 276.

An Act to amend Section sixteen of an act entitled "An Act for the regulation of practice of medicine and surgery, osteopathy, and other systems or modes of treating the sick or afflicted in the State of California, and for the appointment of a board of medical examiners in the matter of said regulation." (Approved March 14, 1907.)

[Approved March 19, 1909.]

The people of the State of California, represented in Senate and Assembly, do enact as follows:

Section 1. Section 16 of an act entitled "An Act for the regulation of the practice of medicine and surgery, osteopathy, and other systems or modes of treating the sick or afflicted, in the State of California, and for the appointment of a board of medical examiners in the matter of said regulation," approved March 14, 1907, is amended to read as follows:

Section 16. Any person who holds a certificate from the board of medical examiners created by "An act for the regulation of the practice of medicines and surgery, in the State of California, and for the appointment of a board of medical examiners in the matter of such regulation," which took effect August the first, nineteen hundred and one, or from one of the boards of examiners heretofore existing, under the provisions of "An act to regulate the practice of medicine in the State of California," approved April third, eighteen hundred and seventy-six, or an act supplemental and amendatory to said act, which became a law April first, eighteen hundred and seventy-eight, shall be entitled to practice medicine and surgery in this State, the same as if it had been issued under this act; any person who holds a certificate from the board of osteopathic examiners of the State of California, under the provisions of "An act to regulate the practice of osteopathy in the State of California, and to provide for a state board of osteopathic examiners, and to license osteopaths to practice in this State, and to punish persons violating the provisions of this act," which became a law under constitutional provisions, without the Governor's approval, March ninth, nineteen hundred and one, shall be entitled to practice osteopathy in this State, the same as if it had been issued under this act. Any person who holds an unrevoked certificate issued by the board of examiners of the Association of Naturopaths of California, incorporated under the laws of the State of California August eighth, 1904, and who shall be practicing naturopathy in this State, the same as if it had been issued under this act. The board of medical examiners shall indorse said certificate at their first meeting after this act becomes a law, or at any subsequent meeting of the board, but not later than six months after the passage of this act, by signature of its president and secretary and affixing its official seal. Provided, however, that the holder of such certificate has signed his or her name on the back of said certificate and the president and secretary of the Association of Naturopaths of California have certified over their respective signatures that the holder of said certificate is the rightful owner of same. But all certificates herein mentioned may be revoked for any unprofessional conduct, in the same manner and upon the same grounds as if they had been issued under this act.

Sec. 2. This act shall take effect and be in force from and after its passage.

EXTRACT FROM THE RULES OF THE BOARD OF MEDICAL EXAMINERS OF THE STATE OF CALIFORNIA.

The Medical Law and the Rules of this Board require of an applicant who desires to practice medicine or surgery to file a diploma issued to him by a legally chartered medical college, the requirements of which were at the time of graduation in no particular less than those prescribed by the Association of American Medical Colleges of that year.

Applicants who desire to practice Osteopathy are required to file a diploma from a legally chartered college of osteopathy, having a course of instruction of at least twenty months, requiring actual attendance, and after 1908, of three years of nine months each, and including the studies examined upon under this act.

The applicant must produce to the board such a diploma and an affidavit stating that he is the lawful possessor of said diploma; that he is the person therein named, and that the diploma was procured in the regular course of instruction and examination, without fraud or misrepresentation of any kind. Such affidavit may be taken before any person authorized to administer oaths (blanks to be furnished by the secretary of the board).

The applicant must furnish satisfactory testimonials of good moral character.

DR. CASE'S SANITORIUM

FORMERLY "THE DR. PETTEY RETREAT"

LIMITED TO THE TREATMENT OF

ALCOHOL and DRUG ADDICTIONS

I have bought Dr. Pettey's interest in the Sanitarium and will continue to conduct the business on strictly ethical lines. The method of treatment employed is based upon the original investigations of Dr. Geo. E. Pettey of Memphis, Tenn., and first published to the profession by him in 1901. (See Therapeutic Gazette, Oct. 1901.)

This method of treatment removes these addictions from the list of almost incurable diseases and renders them the most certainly and readily curable of the chronic ailments.

LIVERMORE SANITARIUM

The Hydropathic Department of the Livermore Sanitarium is intended exclusively for rest, and is fitted with the most modern appliances, electric and hydrotherapeutic, including the Baruch Water Table, electric light cabinets and the Nauheim and Moliere baths.

Department for the Treatment of Mental Diseases.

This department is entirely separated from the Sanitarium and is located in grounds absolutely private.

The central building is surrounded by small cottages for the better segregation of patients.

Thoroughly trained nurses are employed and all modern appliances for the proper care of the insane have been provided. Absolutely no restraint nor enclosures for patients.

...Livermore, with its peculiar climatic advantages and its accessibility, is thirty miles from San Francisco, is completely surrounded by hills and is itself a high plateau.

Terms, \$25 to \$50 per week, depending upon rooms and special nursing. Address

J. W. ROBERTSON, M. D.,

COLORADO

The Ideal Outing Place

THE FAR-FAMED GEORGETOWN LOOP

Before arranging your summer's vacation, let us tell you of the many attractions of Colorado and the delights of a summer outing in the Rocky Mountains. The resort accommodations are excellent. Furnished cottages and camping facilities are good and really inexpensive.

THE COLORADO AND SOUTHERN RAILWAY

"THE COLORADO ROAD"

reaches the world-famed scenic points of interest and the most picturesque summer resorts in Colorado. We also offer many attractive one-day trips into the mountains which can be arranged to suit any taste or any purse.

WRITE TODAY FOR OUR BOOKLETS, particularly "Hotels and Resorts in Colorado," an accurate guide to the summer resorts, hotels, boarding houses, ranches, summer cottages and camping locations, giving prices, locations, etc.; illustrated; also about our one-day trips, including The Far-Famed Georgetown Loop and Mt. McClellan trips.

T. E. FISHER, General Passenger Agent
Denver, Colorado

PLEASURE IN TRAVEL

In crossing the continent you should consider with what ease, comfort and pleasure the trip can be made. It is really a pleasure to make the journey—and one to anticipate with delight—when you select the

through Colorado, Utah and the world famed points of interest.

**A NEW SCENE TO ENTERTAIN YOU
EVERY MILE OF THE WAY.**

STANDARD and TOURIST sleeping cars through without change between Chicago, St. Louis, Kansas City, Denver and San Francisco.

DENVER AND RIO GRANDE RAILROAD

The DENVER PORTABLE SANITARY HOUSE TENTS

Above shows ONE Size. We have many.

DOUBLE ROOF and VENTILATORS. Nothing like it for health. Endorsed by the medical profession. Used and appreciated from Maine to California. It is feasible to ship them anywhere.

WE OFFER YOU THREE PROPOSITIONS

- No. 1. Complete House Tent.**
This includes siding and flooring, all in sections and panels; doors, windows, ventilators, etc.
- No. 2. Canvas part with ventilators, brackets and skeleton frame.**
This leaves out the floor, doors, windows and siding, thus eliminating the bulk of the weight and freight.
- No. 3. Canvas part, including ventilators and brackets for supporting frame for double roof or fly.**
This leaves out the doors, windows, floor, siding, frame, etc., so that there is nothing heavy to pay freight on.

It is advisable to buy the House Tent complete where possible.

COLORADO.

CAPITAL, DENVER.

Population of State, 615,570.

(U. S. Census Bureau, 1906.)

Number of Physicians, 1,945.

Colorado was organized as a territory February 28, 1861, and admitted as a state August 1, 1876. The total land surface of Colorado is, approximately, 103,645 square miles. The average number of persons to the square mile, as shown by the census of 1890, was 3.9, and in 1900, 5.2.

Colorado had, in 1860, a population of 34,277, and in 1870 a population of 39,864, but in 1880, the first census taken after its admission as a state, it had grown to 194,327, representing an increase in ten years of 154,463, or 387.4 per cent. During the decade from 1880 to 1890, its population was again increased by 112.1 per cent, giving a total in 1890 of 412,193. The population of Colorado in 1900, which was 539,700, is nearly sixteen times as large as the population given for 1860, the first year in which its population is given in the census report. It is the fifth state in area and thirty-first in population.

It extends from 37 degrees to 41½ degrees north latitude and from 102 degrees to 109 degrees west longitude, and is bounded on the north by Wyoming and Nebraska, on the east by Nebraska and Kansas, on the south by New Mexico and the Indian Territory, and on the west by Utah. It is the third largest state in the Union, ranking after Texas and California, and comprising an area of 104,500 square miles, or 66,860,000 acres. The main range of the Rocky Mountains runs through the center of the state and forms the "Continental Divide." From one side the streams flow into the Gulf of Mexico, and from the other into the Pacific ocean.

The principal rivers are the South Platte and Arkansas, and these with their tributaries suffice to irrigate all the farm lands in the great agricultural counties of the state.

The climate resembles that of the Eastern states in the same latitude, except that the air is much drier and the range of temperature between the extremes much smaller. Rain falls almost exclusively from May to July, the other months are dry. Frost appears about the middle of September and continues until the opening of spring, which generally occurs a month earlier than in the East.

The vital statistics division of the Census Bureau reports that there was a decrease of nearly 10 per cent (1.8 per 1,000 population) in the general death rate in the registration area during the decade since 1890. "In 1890 the death rate in 271 registration cities of 5,000 or more population was 21 per 1,000. In 1900 the rate was 18.6 per 1,000 in 341 cities of 8,000 population and upward, a reduction of 2.4 per 1,000." The average age at death in 1890 was 31.1 years; in 1900 it was 35.2 years. The total deaths in Colorado in 1900 were 7,791, rate per thousand

THE COLORADO MEDICAL LAW.

An Act to Protect the Public Health and Regulate the Practice of Medicine in the State of Colorado. Approved April 20th, 1905.

Section 1. A board is hereby established, to be known by the name and style of the State Board of Medical Examiners. Said board shall be composed of nine practicing physicians of integrity and ability, who shall be residents of, and have been duly licensed to practice medicine in this State, and who shall have been graduated from medical schools of high educational requirements and standing, and have been engaged in the active practice of their profession within this State for a period of

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

at least five years. Said board shall perform such duties, and possess and exercise such powers, relative to the protection of the public health and the control and regulation of the practice of medicine in this State as shall be in this act prescribed and conferred upon it.

Sec. 2. The governor shall appoint nine physicians, who shall possess the qualifications specified in section 1 of this act, to constitute the members of said board. Said members shall be so classed by the governor that the term of office of three shall expire in two, three in four and three in six years from the date of appointment. Biennially thereafter the governor shall appoint three members, who shall possess the qualifications as specified in section 1 of this act, each to serve for the term of six years, and he shall fill vacancies in the membership of said board as soon as practicable.

Sec. 3. Said board shall biennially, elect a president, a vice-president and a secretary-treasurer from their membership, and adopt a seal, which shall be affixed to all licenses issued by them. They shall, from time to time, adopt such rules and regulations as they may deem necessary for the performance of their duties, and a schedule of minimum educational requirements, which shall be without prejudice, partially or discrimination as to schools or systems of practice of medicine. When an applicant for a license offers to the board satisfactory proof that he has complied with such educational requirements as are specified in said schedule, the board shall accept such proof as sufficient evidence of the educational qualifications of the applicant to entitle him to a license without examination; Provided, however, That at no time shall said schedule for graduates after January 1, 1900, specify the attendance upon less than four full courses of instruction in four separate years in a reputable medical school. They shall keep on file with the Secretary of State, for public instruction, a copy of their schedule of educational requirements and rules and regulations.

Sec. 4. Any person wishing to obtain the right to practice medicine in this State, who has not heretofore been licensed so to do, shall, before it shall be lawful for him to practice medicine in this State, make application to said State Board of Medical Examiners, through the secretary-treasurer thereof, upon such form and in such manner, as shall be adopted and prescribed by the board, and obtain from the board a license so to do. Unless such person shall have obtained a license as aforesaid it shall be unlawful for him to practice medicine in this State; and if he shall practice medicine in this State without first having obtained such a license he shall be deemed to have violated the provisions of this act. All applicants for a license to practice medicine or for a renewal of any such license which has been revoked, shall furnish the board with satisfactory evidence of good moral character.

Sec. 5. Said board shall have authority to administer oaths, to summon witnesses and to take testimony in all matters relating to their duties. Said board shall issue licenses to practice medicine to all persons who shall furnish satisfactory evidence of attainments and qualifications under the provisions of this act and the rules and regulations of the board. Such licenses shall be signed by the president and attested by the secretary-treasurer of the board under its adopted seal, and they shall be absolute authority to the persons to whom they are issued to practice medicine in this State. It shall be the duty of the secretary-treasurer under the direction of the board, personally or by deputy, to aid the several district attorneys of the State in the enforcement of this act and in the prosecution of all persons charged with violating any of its provisions.

Sec. 6. There shall be paid to the secretary-treasurer of the State Board of Medical Examiners by each applicant for a license a fee of twenty-five dollars (\$25.00), which shall accompany the application. Two-fifths of the fee shall be returned to the applicant in case the board shall refuse to grant him a license.

Sec. 7. Examinations of applicants for license to practice medicine shall be made by said State Board of Medical Examiners according to the methods deemed by it to be the most practicable and expeditious to test the applicant's qualifications. Such applicant will be designated by a number instead of his name, so that his identity will not be disclosed to the members of the board, until after the examination papers are graded. The subjects of written, oral or clinical examinations shall be as follows: Anatomy, physiology, chemistry, symptomatology, toxicology, pathology, surgery and obstetrics (exclusive of materia medica and therapeutics). The credentials of applicants relating to their general reputation, their preliminary education and the courses of study they have pursued; the degrees they have received; the number of years they have been engaged in the lawful practice of medicine; their experience in general hospitals, medical departments of the army, navy and public health and marine hospital service; licenses granted to them by other states and countries; and their experience as teachers of medicine, shall be given due consideration by the board in conducting its examinations. Upon investigation of an applicant's credentials the board shall, when convinced that an applicant is qualified to practice medicine, grant him a license thereon without further examination. Each applicant shall name his system of practice and no person shall use the name of any system unless he holds a certificate from the State association of such system.

Sec. 8. Every person who shall receive a license from the State Board of Medical Examiners shall have it recorded in the office of recorder of deeds of the county in which he resides, and shall likewise have it recorded in the counties to which he shall subsequently remove for the purpose of practicing medicine. The failure on the part of the holder of a license to have it recorded, before he shall begin the practice of medicine in this State, shall render it null and void.

Sec. 9. The recorder of deeds of each county in this State shall keep for public inspection, in a book provided for that purpose, a complete list and description of the licenses recorded by him. When any such license shall be presented to him for record he shall stamp or write upon the face thereof his signed memorandum of the date when such license was presented for record.

Sec. 10. The State Board of Medical Examiners may refuse to grant, or may revoke, a license to practice medicine in this State, or may cause a licentiate's name to be removed from the record in the office of any recorder of deeds in the State

upon any of the following grounds, to wit: The employment of fraud or deception in applying for a license, or in passing the examination provided for in this act; the practice of medicine under a false or assumed name, or the personation of another practitioner of a like or different name; the conviction of a crime involving moral turpitude; habitual intemperance in the use of ardent spirits, narcotics or stimulants to such an extent as to incapacitate for performance of professional duties; the procuring or aiding or abetting in procuring a criminal abortion; the obtaining of a fee on the representation that a manifestly incurable disease can be permanently cured; causing the publication and circulation of an advertisement of any medicine or means whereby the monthly periods of women can be regulated, or the menses, if suppressed, can be re-established; causing the publication and circulation of an advertisement relative to any disease of the sexual organs. Any person, who is a licentiate, or who is an applicant for a license to practice medicine, against whom any of the foregoing grounds for revoking, or refusing to grant, a license is presented to said board with a view of having the board revoke, or refuse to grant, a license, shall be furnished with a copy of the complaint, and shall have a hearing before said board in person or by attorney, and witnesses may be examined by said board respecting the guilt or innocence of said accused. Said board may at any time within two years from the refusal or revocation of a license or cancellation of registration under this section, by a majority vote, issue a new license, or grant a license, to the person affected, restoring, or conferring, all the rights and privileges of, and pertaining to, the practice of medicine as defined and regulated by this act. Any person to whom such right and privileges have been so restored shall pay to the secretary-treasurer a fee of ten dollars (\$10.00) upon the issuance of a new license.

Sec. 11. The terms, "practice of medicine," "to practice medicine," "practicing medicine" and "practice medicine," as used in this act are each hereby defined to mean holding oneself out to the public as being engaged within this State in the diagnosis and treatment of diseases or injuries of human beings; or the suggestion, recommendation or prescribing of any form of treatment for the intended palliation, relief or cure of any physical or mental ailment of any person, with the intention of receiving therefor, either directly or indirectly, any fee, gift or compensation whatsoever; or the maintenance of an office for the reception, examination and treatment of any person suffering from disease or injury of body or mind; or attaching the title of M. D., surgeon, doctor, or any word or abbreviation to his name, indicative that such person is engaged in the treatment or diagnosis of the diseases or injuries of human beings. If any person shall hold himself out to the public as being engaged within this State in the diagnosis and treatment of diseases or injuries of human beings; or shall suggest, recommend or prescribe any form of treatment for the intention of receiving therefor, either directly or indirectly, any fee, gift or compensation whatsoever, or shall maintain an office for the reception, examination and treatment of diseased or injured human beings; or shall attach the title M. D., surgeon, doctor, or any other word or abbreviation to his name indicative that he is engaged in this State in the treatment of diseased or injured human beings; and shall not in any of these cases, theretofore have received, or shall not in any of these cases, then possess, in full force and virtue, a valid license to practice medicine under the laws of this State, he shall be deemed to be practicing medicine without complying with the provisions of this act and in violation hereof. Nothing in this act shall be construed to prohibit gratuitous services in case of emergency, nor the practice of religious tenets or general beliefs of any church whatsoever, nor prescribing medicine or administering drugs, nor shall it apply to commissioned surgeons of the United States army, navy or public health and marine hospital service, while so engaged, nor to regularly licensed physicians called from other states or territories to attend specific cases in this State, nor the practice of dentistry, nor the practice of osteopathy when not prescribing medicine, or administering drugs.

Sec. 12. Any person practicing medicine in this State, without complying with the provisions of this act, or any person who shall have violated the provisions of this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine of not less than fifty dollars (\$50.00), nor more than three hundred dollars (\$300.00), or by imprisonment in the county jail for not less than ten (10) days nor more than thirty (30) days, or both. Any person presenting or attempting to file as his own, the diploma or certificate or credentials of another, or who shall give either false or forged evidence of any kind to the State Board of Medical Examiners, or any member thereof, in connection with an application for a license to practice medicine, or who shall practice medicine under a false or assumed name, or who shall falsely personate another practitioner of a like or different name, shall be deemed guilty of a felony, and upon conviction thereof shall be punished by imprisonment in the State Penitentiary for a term of not less than one (1) year, nor more than ten (10) years, at hard labor.

Sec. 13. All fees received by the State Board of Medical Examiners and all fines collected by any officer of the law under this act, shall be paid to the secretary-treasurer of said board, who shall, at the end of each and every month, deposit the same with the State Treasurer, and the said State Treasurer shall place said money so received in a special fund to be known as the fund of the State Board of Medical Examiners, and shall pay the same out on warrants drawn by the Auditor of the State therefor, upon vouchers issued and signed by the president and secretary-treasurer of said board. Said moneys so received and placed in said fund may be used by the State Board of Medical Examiners in defraying their expenses in carrying out the provisions of this act. At the end of every biennial period, if there shall remain in said fund any balance, said balance shall be transferred to the general revenue fund of the State. The secretary-treasurer of said board shall keep a true and accurate account of all funds received and all vouchers issued by the board; and on the first day of December of each year he shall file with the Governor of the State a report of all receipts and disbursements for said board for the preceding fiscal year. Members of said board shall receive a per diem for the time during which they shall be actually engaged in the discharge of their duties; and the secre-

tary-treasurer shall receive a salary; said per diem and salary shall be fixed by the board, and together with other expenses shall be paid out of the fund of the State Board of Medical Examiners.

Sec. 14. The State Board of Medical Examiners shall meet as a board of medical examiners in the city of Denver, on the first Tuesday of January, April, July and October of each year, and at such other times and places as may be found necessary for the performance of their duties.

Sec. 15. Justices of the peace and all courts of record in the State of Colorado shall have full jurisdiction over and power to enforce the provisions of this act.

SCHEDULE OF MINIMUM EDUCATIONAL REQUIREMENTS, ADOPTED JULY 19, 1906, BY THE COLORADO STATE BOARD OF MEDICAL EXAMINERS, WHICH WILL BE ACCEPTED AS SUFFICIENT EVIDENCE OF THE EDUCATIONAL QUALIFICATIONS OF AN APPLICANT TO ENTITLE HIM TO A LICENSE WITHOUT EXAMINATION.

CLASS A.

For Applicants Graduating Prior to and Including 1893.

All applicants who graduated prior to July 1, 1893, must furnish satisfactory evidence of having matriculated in, and graduated from, legally chartered and reputable medical colleges (at that time in good standing with the Colorado State Board of Medical Examiners), which required a preliminary examination for admission and a minimum of two winter courses of instruction in at least the following subjects, viz.: Anatomy, chemistry, physiology, pathology, surgery, practice of medicine, obstetrics, and materia medica and therapeutics (of the system peculiar to the college). All such applicants must have received a license to practice medicine in at least one of the United States of America, in which state the standard of licensure is, in the opinion of the Colorado State Board of Medical Examiners, equal to that of the State of Colorado, and must have been continuously and actively engaged in the lawful practice of medicine since receiving said license.

CLASS B.

For Applicants Graduating in 1894 and 1895.

All applicants who graduated between July 1, 1893, and July 1, 1895, must furnish satisfactory evidence of having matriculated in, and graduated from, legally chartered and reputable medical colleges (at that time in good standing with the Colorado State Board of Medical Examiners), which gave a minimum of twenty weeks of instruction in each twelve months of three separate years in at least the following subjects, viz.: Anatomy, chemistry, physiology, pathology, materia medica and therapeutics (of the system peculiar to the college), obstetrics, gynecology surgery, medical jurisprudence, theory and practice of medicine and hygiene, and which required of their graduates of 1894 and 1895, as a matriculation regulation, a diploma of graduation from some approved university or literary, scientific, normal or high school. All such applicants must have received a license to practice medicine in at least one of the United States of America, in which state the standard of licensure is, in the opinion of the Colorado State Board of Medical Examiners, equal to that of the State of Colorado, and must have been continuously and actively engaged in the lawful practice of medicine since receiving said license.

CLASS C.

For Applicants Graduating in 1896, 1897, 1898 and 1899.

All applicants graduating between July 1, 1895, and January 1, 1900, must furnish satisfactory evidence of having been matriculated in, and graduated from, legally chartered and reputable medical colleges (at that time in good standing with the Colorado State Board of Medical Examiners), which required of their graduates of 1896, 1897, 1898 and 1899 as a matriculation regulation a diploma of graduation from some approved university, or literary, scientific, normal or high school, or a preliminary examination in all the several subjects embodied in the curriculum of an approved high school, and which gave to its students graduating in the years above named four full courses, in four separate years, of instruction in at least the following subjects, viz.: Anatomy, chemistry, physiology, pathology, materia medica and therapeutics (of the system peculiar to the college), surgery, theory and practice of medicine, bacteriology and obstetrics. All such applicants must have received a license to practice medicine in at least one of the United States of America, in which state the standard of licensure is, in the opinion of the Colorado State Board of Medical Examiners, equal to that of the State of Colorado, and must have been continuously and actively engaged in the lawful practice of medicine since receiving said license.

CLASS D.

For Applicants Graduating in 1900 and Thereafter.

All applicants graduating after January 1, 1900, must furnish satisfactory evidence of having been matriculated in, and graduated from, legally chartered and reputable medical colleges, which enforce the following requirements of matriculation, advanced standing, instruction and graduation:

MATRICULATION.

1. Creditable certificates of good moral character, signed by two physicians of good reputation in the state in which the applicant last resided.
2. As evidence of preliminary education, as a minimum requirement any of the following: (a) A diploma or a certificate of graduation from an accredited four-year high school; (b) a certificate signed by a principal of a regularly organized approved high school, the faculty of a recognized literary or scientific college or university, State Superintendent of Public Instruction, County Superintendent of Schools, or some person or board duly appointed by the State Board of Medical Examiners to conduct such an examination; of having successfully passed an examination in all the several branches embraced in the curriculum of a four years' high

school course. The matriculation examination shall not have been conducted by any member of the faculty of the medical college.

ADVANCED STANDING.

1. Applicants holding the degree of A.B. or B.S., or an equivalent degree or certificate obtained in an elective course, from a regularly established and approved college of arts or science, which requires an attendance of four years as an essential to graduation, may be given credit for work actually done in the branches in the medical curriculum of the first year and may be advanced to the second year of a four years' medical course, on condition that they comply with the matriculation requirements of this schedule and that they subsequently complete the work of the first year, and provided that the work already taken shall not be below the standard required by this Board.

2. Graduates of medical colleges complying with the provisions of this schedule may be admitted to any class without examination. Students of such colleges, who possess certificates of attendance and of successful examinations, can enter without examination the term immediately following that previously attended.

COURSE OF INSTRUCTION.

1. The course of instruction must consist of a minimum of four terms in four separate years of nine months each, upon at least the following subjects, viz.: Anatomy, chemistry, physiology, pathology, bacteriology, materia medica and therapeutics (of the system peculiar to the college), theory and practice of medicine, obstetrics, gynecology, ophthalmology, otology, laryngology, dermatology, neurology, hygiene and medical jurisprudence.

2. The number of hours of instruction given in the four terms must not be less than thirty-six hundred (3,600).

3. Such colleges must possess adequate laboratory and teaching equipment, and ample hospital facilities for clinical instruction, such as obtain in the majority of medical colleges in the United States, and a proper corps of competent teachers to constitute a faculty, whose salaries are not dependent upon the graduation of students.

4. Clinical and hospital instruction throughout at least two annual terms.

5. A full dissection of at least the lateral half of a human cadaver.

6. Regular attendance during the entire lecture course, allowance being made only for absence occasioned by the sickness of the student, or his immediate family, such absence not to exceed 20 per centum of the course.

GRADUATION.

1. A record for sobriety, honesty and integrity during the college course.

2. The attendance upon the four full terms of lectures as prescribed (certain persons to whom advanced standing is allowed excepted).

3. Students, graduates as well as undergraduates, allowed advanced standing must attend all lectures and stand all examinations embraced in the last year of the curriculum.

LICENSE TO PRACTICE MEDICINE.

All such applicants must have received a license by examination to practice medicine in at least one of the United States of America, in which state the standard of licensure is, in the opinion of the Colorado State Board of Medical Examiners, equal to that of the State of Colorado, and must have been continuously and actively engaged in the lawful practice of medicine since receiving said license.

CLASS E.

Physicians and Surgeons in the United States Service.

This class includes all applicants who have been admitted, and are duly authorized and empowered to practice medicine in any of the regular medical departments of the Army, Navy, and Public Health and Marine Hospital Service of the United States of America, and are in good standing and of good repute in such Federal service.

Don't STAMMER

are endorsed by hundreds of ex-pupils, prominent physicians and leading business men. Book, "Advice to Stammerers" and reference sent on request. Address **The BENJ. N. BOGUE INSTITUTE FOR STAMMERERS**, 1414 N. Illinois, Indianapolis, Ind.

I cured myself after stammering badly for nearly twenty years. I now employ the same methods to cure others. As "like cures like," what worked a cure with me will likewise permanently cure others. Graduates are found in every state, territory and some foreign countries. Students are accommodated in a home-like dormitory. Methods

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

CONNECTICUT.

CAPITAL, HARTFORD.

Population of State, 1,005,716.

(U. S. Census Bureau, 1906.)

Number of Physicians, 1,497.

One of the original thirteen states of the Union, and the most southwestern of the New England states, is bounded on the north by Massachusetts, on the east by Rhode Island, on the west by New York, and on the south by Long Island Sound. It extends from 41 degrees to 42 degrees 2¼ minutes north latitude, and from 71 degrees 55 minutes to 73 degrees 50 minutes west longitude. The population of the state, according to the U. S. census of 1900, is 908,355, as compared with the population in 1890 of 746,258, showing an increase since 1890 of 162,097, or 21.7 per cent. This is a little larger rate of increase than that of the decade from 1880 to 1890, when it was 19.8 per cent. Connecticut had in 1790 a population of 237,946, and did not increase rapidly in population until the ten-year period from 1840 to 1850, when it showed an increase of 19.6 per cent, which was followed in the succeeding ten years, from 1850 to 1860, by an increase of 24 per cent. The total land surface of Connecticut is, approximately, 4,845 square miles; the average number of persons to the square mile at the censuses of 1890 and 1900 being as follows: 1890, 154; 1900, 187.4. The climate is, like that of the other New England states, marked by great extremes and sudden changes; the winters are cold, the summers hot. The northwest part of the state has the coolest climate, the districts bordering on the sound the warmest. The mean annual temperature, as observed at the capital, is about 50 degrees, and the amount of rainfall varies from 41 to 47 inches according to the place of observation. The surface is of a generally undulating character. It includes the southern extremities of the two great New England systems of elevations, which are known in Vermont as the Green Mountains, and in New Hampshire as the White Mountains. The principal rivers are the Connecticut, the Thames, the Niantic, and the Housatonic. There are no large lakes, but numerous small and beautiful bodies of water are distributed over its surface. The higher portions are well adapted to grazing, and the rich valleys produce the cereal, orchard and garden crops of the temperate zone, also tobacco, in great abundance. Connecticut ranks amongst the foremost of manufacturing states, almost every conceivable article, particularly hardware, textile fabrics and clocks, being included in the output.

Building stone is found in great abundance. As an educational center this state enjoys a national reputation.

DIGESTS OF THE LAWS OF 1907.

a. No person shall, for compensation, gain or reward, received or expected, treat, operate or prescribe, for any injury, deformity, ailment or disease, actual or imaginary, of another person, nor practice surgery or midwifery, until he has obtained a certificate of registration, and then only in the kind or branch of practice stated in said certificate.

b. No person shall obtain a certificate of registration until he has passed a satisfactory examination before one of the examining boards appointed for the purpose, nor until he has filed duplicate certificates signed by a majority of said examining board, stating that they have found him qualified to practice either medicine, surgery or midwifery, nor until he has filed duplicate statements subscribed and sworn to by him upon blanks furnished, giving his name, age, place of birth and present residence, stating of what medical college he is a graduate, and the date of said graduation, together with such other information as shall be required. No person shall be eligible to said examination until he presents to the board, by whom he shall be examined, satisfactory evidence that he has received a diploma from some legally incorporated and reputable medical college and complied with the requirements of the law concerning preliminary education. Any person passing such examination and filing said certificates and statement shall receive from the State Board of Health, upon payment of two dollars, a certificate of registration, which shall state that the person named has been found qualified so to practice. He shall be registered in the town wherein he resides or the town nearest thereto—but shall be entitled to practice anywhere in this State without further registration.

RULES FOR EXAMINATION.

1. Examinations will be held on the second Tuesday of March, July and November, at the City Hall, New Haven, beginning at 9:30 a. m., and lasting two days, closing at 4:30 p. m. of the second day.

2. Examinations will be conducted in writing in the English language.

3. Examinations for general practice consist of ten questions in each of the following branches: 1 Anatomy. 2 Physiology. 3 Medical Chemistry and Hygiene. 4 Materia Medica, including therapeutics. 5 Practice, including pathology and diagnosis. 6 Obstetrics, including gynecology. 7 Surgery.

4. In order to obtain a certificate of qualification the applicant must obtain a general average of 75 per cent. In no branch shall his percentage be less than 60, and in Practice, Obstetrics and Surgery the minimum requirement will be 65 per cent.

5. Examination fee, \$15.00, payable in advance on the first day of examination. Candidates once rejected may be re-examined at any subsequent meeting of the Board, but must pay full fee for each trial.

6. All candidates must be graduates of some reputable medical college and must present their diplomas (or a certificate from the dean of the medical college) for inspection, to the Secretary of the Board at the opening of the session. As evidence of the required preliminary education, he must also present a diploma from an accepted high or preparatory school or documentary proof that this preliminary education is equivalent thereto. From and after January 12, 1914, no person can be admitted to the examinations until, in addition to the foregoing, he shall present evidence of his having completed a satisfactory course of study of at least nine months in Chemistry, Physics and General Biology.

7. Each candidate must present his photograph as a means of identification. This will be retained and kept on file by the Secretary.

8. Formal application must be made to the Secretary at least five days before the date of the examination. This must be accompanied by a certificate of good moral character signed by two reputable citizens of this State.

9. Questions used at some former examinations will be found in the yearly Proceedings of the Connecticut Medical Society—the Board is unable to supply copies.

10. A license or an examination in another state is not accepted by this Board. All candidates must undergo the regular examination. It is unlawful to practice in this State before examination and license. No temporary or provisional certificate can be given.

"ON=THE HILL"

WATERTOWN, Litchfield County, CONNECTICUT

Just the place you are looking for to regain your health, among the Litchfield Hills. For Nervous and Chronic Invalids and Convalescent, Medical and Surgical Cases needing special care and treatment.

The town of Watertown is situated in Litchfield County, at the beginning of the Berkshire Hills, over six hundred feet above the sea level, and is accessible by the New York, New Haven & Hartford Railroad. The location is excellent, on high ground, surrounded by twenty-five acres of land, including woodland, lawns and orchards.

From the house the view is extensive, with fine walks and drives near by.

The house has been thoroughly modernized and a fine Solarium, amusement hall and large annex has been recently added, increasing facilities and comfort of patients.

Patients desiring open air treatment can be accommodated under improved tent life.

The idea is to give patients all the comforts of home, with absolute rest and quiet.

Massage, baths, vibrator, hot air and electric treatment given, also Medical Gymnastics.

Table supplied from own garden and dairy.

Terms moderate.

DR. BROOKS' SANATORIUM

FIFTEENTH YEAR

FOR THE TREATMENT OF

DISEASES OF THE LUNGS

FIFTEENTH YEAR

NEW CANAAN,
CONNECTICUT

Please Note that this institution is not a Sanitarium for the care, but a Sanatorium for the modern and scientific treatment of Disease of the Lungs. The strictest, physiologic and systematic hygienic regimen is enjoined, under constant, painstaking, medical supervision and efficient nursing. Aerotherapy "Liege und Dauerluftkur," hydrotherapy, suralimentation and inhalation-therapy find here an exemplification in the truest acceptation of the terms. It is hardly necessary to state that every attention is paid to sanitation and prophylaxis. The institution is ideally located in a region of open country, long noted for its fresh, pure and invigorating atmosphere. For illustrated prospectus and further particulars, address

M. J. BROOKS, M. D., New Canaan, Connecticut.

Delaware is bounded on the north by Pennsylvania, on the west and south by Maryland, and on the east by the Atlantic ocean and the Delaware river and bay, and extends from 38 degrees 28 minutes, to 39 degrees 50 minutes N. latitude. It is one of the thirteen original states, and comprises an area of 2,120 square miles, or 1,356,800 acres. It

occupies the northeastern portion of the peninsula which separates Delaware bay from Chesapeake bay, and which forms a plain of but little elevation above the sea level. Through the center of this peninsula extends from north to south a broad swell of the ground, somewhat higher than the sea coast, and covered with swampy tracts, from which the small streams issue. Delaware includes a portion of this higher ground and thus forms a plain gently inclining from the west to the shores of Delaware bay on the east. The climate is mild, the mean

MEDICAL LAWS OF DELAWARE.

An Act Regulating the Practice of Medicine and Surgery in this State.

Whereas, The safety of the public may be endangered by incompetent physicians and surgeons, and due regard for public health and the preservation of human life depends that none but competent and properly qualified physicians and surgeons shall be allowed to practice their profession, therefore,

Be it enacted by the Senate and House of Representatives of the State of Delaware in General Assembly met:

Section 1. That there shall be established a Medical Council of Delaware, consisting of the chief justice of the State and of the presidents of the two State Boards of Medical Examiners provided for in this act.

by-laws for their own government, not inconsistent with the laws of this State or of the United States, and shall have power to locate and maintain an office within this State for the transaction of business. Two members of said council shall constitute a quorum for the transaction of business.

Sec. 3. The said council shall organize within ten days from the date of the organization of the two Boards of Medical Examiners, and shall elect from its own number a president and a secretary, who shall also act as treasurer, both of whom shall hold their offices for one year, or until their successors are chosen.

Sec. 4. The members of said council shall receive, in addition to their necessary expenses, five dollars per day each for each meeting of the council, but said per diem shall not exceed in any one year more than fifteen dollars, the same to be paid out of the fees hereinafter provided for.

Sec. 5. The said medical council shall hold two stated meetings in each year, and may hold special meetings at such times as it may deem proper. It shall issue certificates for license to practice medicine and surgery to such applicants as have presented such diplomas as hereinafter required and successfully passed the examination hereinafter provided, and the said medical council shall have no powers, duties or functions except as provided for in this act.

Sec. 6. That from and after the passage of this act there shall be, and continue to be, two separate Boards of Medical Examiners for the State of Delaware, one representing "The President and Fellows of the Medical Society of Delaware," and the other "The Homoeopathic Medical Society of Delaware State and Peninsula."

Each board shall consist of five members, and each of said number shall serve for a term of two years from the first day of March next after appointment, with the exception of those first appointed, who shall serve as follows, namely: two of each board for one year, and three of each board for two years, from the first day of March, A. D. 1895.

The Governor shall appoint the members of said Board of Examiners, respectively, from the lists of members submitted by said medical societies residing in this State, which lists shall, within ten days from the passage of this act, and on or before the first day of every January thereafter, be transmitted to the Governor under the seal and signed by the secretary of the society so nominating.

From these lists of nominees, respectively, the Governor shall, within ten days after the receipt thereof, appoint two separate Boards of Medical Examiners, each board to be composed exclusively of members of the same medical society. In case of the failure of either of the said societies to submit lists as aforesaid, the Governor shall appoint members in good standing of the corresponding society entitled to nominate without other restrictions.

Each one of the said appointees must be a registered physician in good standing, and shall have practiced medicine or surgery under the laws of this State for a period of not less than five years prior to such appointment.

The Governor shall fill vacancies by death or otherwise for unexpired terms of said examiners from the lists submitted as aforesaid, and may remove any member of either of said boards for continued neglect of the duties required by this act, or on recommendation of the medical society of which said member may be in affiliation for unprofessional or dishonorable conduct.

The Governor shall in his first appointments designate the number of years for which each appointee shall serve.

The appointments of successors to those members whose terms of office will expire on the first day of March of each year shall be made by the Governor during the first ten days of January of such year, upon the same conditions and requirements as hereinbefore specified with reference to the appointment of two separate examining boards, each to be composed exclusively of members of the same medical society, as hereinbefore provided.

Sec. 7. Said boards shall be known by the name and style of "Boards of Medical Examiners of the State of Delaware." Every person who shall be appointed to serve on either of said boards shall receive a certificate of appointment from the Secretary of State under his hand. Each of said Boards of Examiners shall make and adopt all necessary rules, regulations and by-laws, not inconsistent with the laws of this State or of the United States, whereby to perform the duties and transact the business required under the provisions of this act.

Sec. 8. From the fees provided by this act the medical council shall pay, not to exceed said income, all proper expenses incurred by its provisions; and if any surplus above said expenses shall remain at the end of any year, it shall be apportioned among said medical societies pro rata according to the number of candidates examined by each.

Sec. 9. The first meeting of each of the examining boards, respectively, shall be held on the first Tuesday of July, 1895. At such meeting of each of the boards, respectively, an organization shall be effected by the election from their own membership of a president and secretary, for the purpose of examining applicants for certificate for license. Each of said Boards of Medical Examiners shall hold two or more stated or special meetings in each year, due notice of which shall be made public at such times and places as they may determine. At said stated or special meetings a majority of the members of either board shall constitute a quorum thereof, but the examination may be conducted by a committee duly authorized by said boards.

Sec. 10. Each Board of Medical Examiners, not less than one week prior to each examination, shall submit to the Medical Council of Delaware questions for thorough examinations in anatomy, physiology, hygiene, chemistry, surgery, obstetrics, pathology, diagnosis, therapeutics, practice of medicine and materia medica.

The medical council shall select the questions for such examinations from the lists of questions submitted by the Board of Medical Examiners of the candidate's election; and should there be candidates for examination of any other school than the two designated in this act, they shall be examined by the council and some reputable practitioner in this State of such school, by said council to be selected,

upon questions selected from standard text books on the above subjects as taught by the school selected by the candidate.

Sec. 11. Said examinations shall be conducted in writing in accordance with the rules and regulations prescribed by the respective Boards of Medical Examiners, and shall embrace the subjects named in Section 10 of this act. After each examination the Board of Medical Examiners having charge thereof shall, without unnecessary delay, act on the same. An official report of such action, signed by the president, secretary and each acting member of said Board of Medical Examiners, stating the result of examination, shall be transmitted to the medical council.

Sec. 12. On receiving from either of said Boards of Medical Examiners such official report of the examination of any applicant for certificate for license, the medical council shall issue forthwith to each applicant who shall have been returned as having successfully passed the examination a certificate to that effect.

The medical council shall keep a record of all certificates, when and to whom issued.

Sec. 13. From and after the passage of this act any person not heretofore authorized to practice medicine and surgery in this State, and desiring to enter upon such practice, shall deliver to the secretary of the medical council, upon the payment of a fee of ten (\$10) dollars, a written application for examination, together with satisfactory proof that the applicant is more than twenty-one years of age, is of good moral character, has obtained a diploma from some reputable literary or scientific college or a certificate from the faculty of Delaware College, signed by the President and attested by the Secretary thereof, that he or she is qualified to enter the freshman class of the Latin Scientific course of the said college, and has received a diploma conferring the degree of medicine from some legally-incorporated medical college, which, in the opinion of the Medical Council was in good standing at the time of the issuing of said diploma. Applicants who have received their degree in medicine after the passage of this act must have pursued the study of medicine for at least four years, including four regular courses of lectures of not less than seven months each, in different years prior to the granting of said degree in some legally-incorporated medical college or colleges approved by the Medical Council. Such proof shall be made upon affidavit. Upon making of said payment and proof, the medical council shall issue to said applicant an order for examination before such one of the State Boards of Medical Examiners as the applicant for certificate may select. In case of failure at any such examination the candidate, after the expiration of six months and within two years, shall have the privilege of a second examination by the same board to which application was first made, without the payment of an additional fee, but if after six months and before two years from such examination said application shall be withdrawn the said ten (\$10) dollars shall upon demand be returned. Provided that applicants for license who graduated prior to July 1st, A. D. 1901, and have been in continuous and reputable practice for at least five years since graduation, may be admitted to the examinations of one of said Boards, upon certified and satisfactory evidence of good moral character, of three courses of medical lectures in different calendar years, and of a competent academic education according to the requirements of that time; and provided further, that applicants for license who graduated prior to July 1st, A. D. 1896, and have been in continuous and reputable practice for at least ten years, may be admitted to the examination of one of said Boards upon certified and satisfactory evidence of moral character, of two courses of medical lectures in different calendar years and of a competent academic education according to the requirements at that time.

Sec. 14. That from and after the passage of this act, it shall not be lawful for any person to practice medicine or surgery in this State without having obtained a license therefor as hereinafter provided. But a temporary license, of not less than two weeks nor more than four months, may be granted to a resident and legally qualified physician of another State to take charge of the practice of a resident and legally qualified physician of this State, during the latter's temporary illness or absence from this State, upon the written request of a physician residing in this State, and the payment to the Secretary of the Medical Council of a fee of two dollars (\$2) for the use of said Council, and when such temporary license is so issued, the physician receiving such license shall have the right to practice medicine in the State of Delaware, for the time specified in said temporary license.

Sec. 15. The clerk of the peace of any of the counties of this State shall issue a license signed by the Governor and countersigned by the Secretary of State and sealed with the seal of his office, certifying that such person is authorized to practice medicine and surgery in this State, conformably to the laws thereof, to any person who shall present to him a certificate as provided in this act, or who shall have been qualified in one of the counties of this State prior to the passage of this act, and to no other person.

Sec. 16. The provisions of this act shall not apply to physicians who are practitioners of any other State coming into this State in consultation with any lawful practitioner of medicine and surgery in this State.

Sec. 17. Any person practicing or attempting to practice medicine or surgery within this State contrary to the provisions of this act, shall be guilty of a misdemeanor and upon conviction thereof in the Court of General Sessions of the Peace and Jail Delivery of the county wherein the offense was committed, shall pay a fine of not more than five hundred (\$500.00) dollars nor less than one hundred (\$100.00) dollars or be imprisoned for a term of not more than one year.

Sec. 18. That this act shall not in any way apply to dentists or to dental surgery.

Sec. 19. All other acts or parts of acts regulating the practice of medicine and surgery in this State are hereby repealed; but nothing herein contained shall in any way interfere with the operation of Chapter 117, Volume 13, Laws of Delaware, relating to revenue.

Sec. 20. For the purposes of this act and the act to which this is an amendment, the words, practice of medicine, or surgery, shall mean to open an office for such purpose, or to announce to the public, or to any individual, in any way, a desire or

willingness or readiness to treat the sick or afflicted in any county in the State of Delaware, or to investigate or diagnosticate, or to offer to investigate or diagnosticate any physical or mental ailment, or disease, of any person, or to give surgical assistance to, or to suggest, recommend, prescribe or direct for the use of any person, any drug, medicine, appliance or other agency, whether material or not material, for the cure, relief or palliation of any ailment or disease of the mind or body, or for the cure or relief of any wound, fracture, or bodily injury, or deformity, after having received or with the intent of receiving therefor, either directly or indirectly, any money, gift, or any other form of compensation. It shall also be regarded as practicing medicine within the meaning of this act if any one shall use in connection with his or her name, the words or letters Dr., Doctor, Professor, M. D., M. B. or Healer, or any other title, word, letter or other designation which may imply or designate him or her as a practitioner of medicine, or surgery, in any of its branches; provided that nothing in this act nor the act to which this is an amendment, shall be construed to apply to the administration of domestic or family remedies in cases of emergency, or to dentists or dental surgeons in the practice of dentistry, or to surgeons of the United States Army or Navy in the discharge of their official duties, or to prevent the mechanical application of glasses; provided, that nothing contained in this act shall prevent opticians from preparing eyes for testing or testing eyes and fitting glasses to correct vision, or to prevent druggists practicing pharmacy according to the existing laws, or to prevent the treatment of corns or bunions or the business of manicuring or the practice of massage. The requirements of Sec. 1 of this amendment as to general or medical education shall not apply to students now matriculated in medical colleges, but such students shall conform, as to general and medical education, to the requirements of the statutes to which this act is an amendment.

Sec. 21. Any practitioner of the system, method or science of treating diseases of the human body commonly known as Osteopathy, who is a graduate of any legally chartered and regularly conducted school of Osteopathy which in the opinion of the Medical Council shall be in good standing, who holds a diploma regularly issued from such school, and who has been in personal attendance as a student in such school for at least four terms of not less than five months each before graduation, and who is now located and practicing in this State, is hereby authorized to so practice, without conforming to, and notwithstanding, any provision of this act, or the act to which this act is an amendment, upon such practitioners of Osteopathy paying to the State the State license tax prescribed by law for physicians.

That all other persons proposing to practice Osteopathy in this State after the passage of this act shall be subject to the provisions of this act and of the act to which this act is an amendment, provided that such future applicants to practice Osteopathy in this State shall be examined by the Medical Council and some reputable practitioner of Osteopathy in this State, or, if there shall be no reputable practitioner of Osteopathy then residing in this State, by the Medical Council and some practitioner of Osteopathy from some other State, to be designated by the Medical Council; and provided further, that such future applicants to so practice shall be examined only upon such questions as shall be selected by the Medical Council and such selected associated practitioner of Osteopathy in anatomy, physiology, hygiene, chemistry, obstetrics, pathology, physical diagnosis, histology, gynecology, surgery, urinalysis, and principles of Osteopathy. Any person who is the holder of a diploma regularly issued by any legally chartered and regularly conducted school of Osteopathy, who has been in personal attendance as a student in such school for at least three years for terms of not less than seven months in each year before graduation, and who shall conform to the provisions relative to general education, shall be eligible to such examination by said Medical Council, notwithstanding any of the provisions of this act. Upon successfully passing said examination, the applicant to practice Osteopathy shall be entitled to receive and shall receive from said Medical Council an appropriate certificate entitling him to practice Osteopathy in this State. The Clerk of the Peace of any of the counties of this State shall, upon the payment of the amount of the State license tax prescribed by law for physicians, issue a license signed by the Governor and countersigned by the Secretary of State and sealed with the seal of his office, certifying that such person is authorized to practice Osteopathy in this State, conformably to the laws thereof, to any person who shall present to him such certificate of the Medical Council or to any practitioner of Osteopathy now practicing in this State conformably to the provisions of this act.

A SUPPLEMENT TO AN ACT ENTITLED "AN ACT REGULATING THE PRACTICE OF MEDICINE AND SURGERY IN THIS STATE," PASSED AT DOVER, APRIL 18, 1895.

Be it enacted by the Senate and House of Representatives of the State of Delaware, in General Assembly met:

Section 1. That the Medical Council of Delaware may refuse to issue a certificate for a license to practice medicine and surgery or may revoke a certificate issued for a license to practice medicine or surgery for the following causes, to wit: Chronic and persistent inebriety; the practice of criminal abortion; conviction of a crime involving moral turpitude or for publicly advertising special ability to treat or cure chronic incurable diseases, or where any person shall present to the said medical council any diploma, license or certificate that shall have been illegally obtained or that shall have been signed or issued unlawfully or under fraudulent representation; in complaints for violating the provisions of this section the accused person shall be furnished with a copy of the complaint and given a hearing before the said medical council in person or by attorney.

Sec. 2. That applicants examined and licensed by or who are or have been members of State examining and licensing boards of other States upon the payment of fifty dollars to the treasurer of the Medical Council of Delaware, and on filing with the secretary of said medical council a copy of his or her license or certificate certified to by the affidavit of the president and secretary of such board, showing also that the standard of requirements of the said board at the time the said license

or certificate was issued, was substantially the same as that required by the said Medical Council of Delaware, and of his or her affidavit as to the personality thereof, may be granted a certificate for a license to practice medicine and surgery by the said medical council, upon the recommendation of the said Boards of Medical Examiners without further examinations thereby.

Sec. 3. That the State Treasurer shall pay the sum of three hundred dollars per annum, in quarterly payments of seventy-five dollars each, to the treasurer of the Medical Council of Delaware, who shall apportion and pay the same to the members of the said boards for their necessary expenses, and in addition five dollars per day each for each member for every meeting attended, but said per diem shall not exceed in any one year more than twenty-five dollars.

DISTRICT OF COLUMBIA.

Population of District, 307,716.

(U. S. Census Bureau, 1906.)

Number of Physicians, 1,023.

The population of the District of Columbia, according to the U. S. census of 1900, was 278,718, as compared with a population in 1890 of 230,392, showing an increase of 48,326, or 20.9 per cent since 1890. The population in 1800, the first census taken after its formation in 1791, was 14,093, which, as compared with the population in 1900, shows an increase of not quite twenty-fold in 100 years. The total land surface is approximately 60 square miles, the average number of persons to the square mile at the censuses of 1880 and 1900 being as follows. 1890, 3,839.8; 1900, 4,645.3. It is bounded on the south by the Potomac river, the balance being inclosed by the State of Maryland. The climate is genial, the mean annual temperature being 56.16 degrees and the average rainfall 37.62 inches. It lies between 38 degrees 51 minutes and 39 degrees north latitude, and 76 degrees 58 minutes and 77 degrees 6 minutes west longitude, and contains the city of Washington, the national capitol and seat of the supreme legislature. It is governed by three commissioners appointed by the President. The religious and educational facilities are second to none in the United States.

CIRCULAR OF INFORMATION RELATIVE TO THE PRACTICE OF MEDICINE IN THE DISTRICT OF COLUMBIA.

1. No person can lawfully practice medicine in the District of Columbia unless licensed to do so by the Board of Medical Supervisors.

2. Licenses for this purpose may be issued either (a) after examination, or (b) upon the basis of licenses issued by states, territories, and insular possessions of the United States, and by foreign countries.

ISSUE OF LICENSES AFTER EXAMINATION.

3. Examinations are held quarterly, commencing on the second Tuesdays in January, April, July, and October of each year. They continue usually about four days—that is, until the following Friday.

4. Applications must be made on forms furnished by the Board of Medical Supervisors. If the applicant is to be examined, his application must be filed with the secretary of the board at least two weeks prior to the day set for commencement of the examination which the applicant desires to enter.

5. A fee of ten dollars must accompany each application.

6. Only those who hold the degree of doctor of medicine are admitted to examination. Those who have received such degree before June 30, 1898, must have studied medicine not less than three years, and those who have received it after that date must have studied not less than four years, before graduation. A diploma conferring such degree must accompany each application.

7. The examination is both written and oral. It includes anatomy, physiology, chemistry, bacteriology, pathology, materia medica and therapeutics, hygiene, histology, practice of medicine, surgery, obstetrics, gynecology, diseases of the eye and the ear, medical jurisprudence, and such other branches as may be from time to time determined by the Board of Medical Supervisors.

8. Copies of questions which have been used in previous examinations will not be furnished under any circumstances.

9. Persons failing in one examination are permitted to enter any subsequent examination but a new application must be filed, and a new fee, ten dollars, paid, each time.

ISSUE OF LICENSES BY VIRTUE OF RECIPROCITY.

10. Licenses may be issued without examination upon the basis of licenses issued by states, territories, and insular possessions of the United States, and by foreign countries, but only subject to the following conditions:

"(a.) No applicant shall be licensed who is not of good moral character and free from mental defects and drug habits liable to interfere with the proper practice of medicine and surgery;

"(b.) Nor who, at the time of making application, and for not less than two years prior to the date thereof, has not been lawfully authorized to practice medicine and surgery, and actually engaged in such practice, in the jurisdiction wherein he resides;

"(c.) Nor unless the applicant acquired the right to practice medicine and surgery in such jurisdiction under conditions equivalent to those with which he would have had to comply in order then to have practiced medicine and surgery in the District of Columbia;

"(d.) Nor unless the jurisdiction, by virtue of whose license the applicant seeks exemption from examination in the District of Columbia, grants to licentiates of the Board of Medical Supervisors of said district privileges equivalent to those which the applicant seeks;

"(e.) Nor until the applicant has paid to the Board of Medical Supervisors aforesaid such fee as may be fixed and required by the regulations of said board, but not more than the fee charged under similar circumstances by the jurisdiction by virtue of whose license the applicant seeks exemption from examination."

11. In order to ascertain whether the jurisdiction by virtue of whose license a prospective applicant purposes seeking exemption from examination in the District of Columbia complies with the requirements of paragraph "d," supra, the applicant should apply directly to the proper authorities of said jurisdiction; the Board of Medical Supervisors cannot undertake to advise an applicant as to the law or practice followed in any jurisdiction other than the District of Columbia.

12. All communications relative to licenses to practice medicine in the District of Columbia should be addressed to "The Board of Medical Supervisors, Washington, D. C."

LIST OF PHYSICIANS

ARRANGED ALPHABETICALLY BY POSTOFFICES.

For Corrections and Names Received Too Late for Regular Insertion, see Supplement. Refer to Index for Location.

ABBREVIATIONS:

R., Regular; H., Homoeopathic; Ecl., Eclectic; P. M., Physio-Medical; *, No report received; ‡, Holds certificate of Examining Board; †, Legally authorized under the "years of practice" section of the act; †, Dentist; R. D. 1, Rural Free Delivery No. 1.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 143-189) indicates the college of graduation, and the last number the year in which diploma was granted.

Florida

FLORIDA.

CAPITAL, TALLAHASSEE.

Census of 1905.)

Population of State, 623,230.

Number of Physicians, 784.

Florida is the most southerly state in the United States, and lies between $24\frac{1}{2}$ degrees and 31 degrees north latitude, and between 80 degrees and 88 degrees west longitude from Greenwich. The total area of the state is 59,268 square miles, or 37,931,520 acres. Of this area, according to the latest United State census, the total land surface is 54,240 square miles; the total area covered by water, composed of lakes, rivers and ponds, is 5,028 square miles. The length of the state from its northern boundary to the south end of the peninsula is something over 400 miles; the average width of the peninsula is about 100 miles, and that portion of the state lying along and between the States of Georgia and Alabama and the Gulf of Mexico averages about 60 miles in width, though much narrower in some places.

From its geographical position, being in the same latitude as the northern half of Mexico and southern China, it is natural to suppose the climate is hot, but its comparative degree of heat is not accurately indicated by its latitude, because the temperatures that might be expected from its geographical position are controlled in great measure by its peculiar shape, bringing the whole surface in close proximity to the ocean currents, which influence to a great degree its entire climatic conditions. The narrowness of the State and its consequent exposure to the fructifying influence of the balmy ocean winds produces a pleasantness and salubrity of climate and a power of vegetable production truly wonderful.

The surface of the State, taken as a whole, is comparatively level; the most level portion being in the eastern and southern sections of the State, though there are numerous points in the parts just mentioned where considerable areas of country are from 100 to 250 feet above sea level; in the northern, north central and western sections of the State, the greater portion of the country is quite hilly, many points having a latitude of 200 to 300 feet above tide water.

Of the geographical features most important, the most noticeable is the great length of coast line, almost 1,200 miles, which is also remarkable for the great number of bays, making the entire coast accessible, and containing a number of the finest harbors in the United States. Into these bays flow numerous streams, many of them navigable, plied by lines of steamboats that supply facilities for commercial intercourse with interior points. A number of these rivers flow entirely across the State (the St. Johns River runs almost the entire length, rising far to the south and flowing due north), and in almost every case have

at their mouths safe harbor for vessels in coasting trade, as well as for vessels of larger draught. The principal harbors on the Gulf Coast are Pensacola, Tampa, Charlotte Harbor, Key West and Carrabelle, and on the Atlantic coast, Fernandina, Jacksonville and Miami.

MEDICAL LAWS OF FLORIDA.

Law effective May 31st, 1889, and Sections 801, 802, 805 and 810 as amended by the Legislature of 1905, and approved by the Governor, May 15th, 1905.

Be it enacted by the Legislature of the State of Florida:

Section 1. That Section 801 of the Revised Statutes of the State of Florida, be amended so as to read as follows:

801. Appointment of Medical Examiners.—The Governor shall appoint a state board of medical examiners, and also a state board of homeopathic medical examiners.

Sec. 2. That Section 802 of the Revised Statutes of the State of Florida be amended so as to read as follows:

802. Qualifications of Examiners.—The state board of medical examiners shall be composed of seven regular, practicing physicians, who have been duly licensed to practice in this State; no two members shall be residents of the same judicial circuit. The board of homeopathic examiners shall be composed of three practicing homeopathic physicians, who are graduates in good standing of some medical college, recognized by the American Institute of Homeopathy.

Sec. 803. Terms of Office.—The appointment of each member of each of said boards shall continue for four years from the date of such appointment. Whenever a vacancy shall occur on any of said boards, the same shall be filled by the Governor for the unexpired term.

804. To Elect President and Secretary and Make Rules.—Every board shall elect one of their number president, and one secretary, and shall adopt all necessary rules for the guidance and control of their meetings.

Sec. 3. That Section 805 of the Revised Statutes of the State of Florida be amended so as to read as follows:

805. Regular Meetings.—Each board shall meet regularly, semi-annually, at some central and convenient point in the State to conduct examinations, and grant licenses, as herein provided, and they shall give at least one month's public notice of their meeting by publication once a week in a newspaper of general circulation throughout the State.

806. Examinations.—It shall be the duty of said board of examiners to examine thoroughly every applicant for certificate of qualification to practice medicine in any of its branches or departments, upon the production of his medical diploma from a recognized college upon the following named subjects: Anatomy, physiology, surgery, gynecology, therapeutics, obstetrics, and chemistry, but no preference shall be given to any school of medicine. Provided, That it shall be the duty of the board of homeopathic medical examiners to examine thoroughly every applicant for certificate of qualification to practice medicine in any of its branches or departments, upon the production of his diploma from a college recognized by the American Institute of Homeopathy, upon the following subjects: Anatomy, physiology, surgery, gynecology, materia medica, therapeutics, obstetrics and chemistry, and no preference shall be given to any school of medicine. (As amended by Chapter 4419, Acts of 1895.)

807. When the board shall be satisfied as to the qualifications of an applicant, they shall grant to him a certificate to that effect, which certificate shall entitle the person to whom granted, to practice medicine in any county when the same shall have been recorded as required by Section 809.

808. Two May Grant Certificates.—Temporary Certificates.—Any two members of said board may grant a certificate of qualification to an applicant; and any member of said board shall have authority to grant a temporary certificate to an applicant, upon examination, until the next regular meeting of the board, at which time the temporary certificate shall cease to be of force.

809. Record of Certificate.—The certificate provided for in the two preceding sections shall, before the person to whom it is granted shall be entitled to practice by virtue thereof, be recorded in the office of the clerk of the circuit court in the county in which such practitioner may reside or sojourn, in a well-bound book to be kept by clerk for that purpose, and when so recorded the clerk shall certify thereon under his official seal the fact and date of such record, and shall return such certificate to the person to whom the same was granted, and shall be entitled for such service to collect from the holder of such certificate the legal fee for recording.

Sec. 4. That Section 810 of the Revised Statutes of the State of Florida, be amended so as to read as follows:

810. Examination Fee.—The board shall be entitled to demand and receive from each applicant examined the sum of fifteen dollars, whether a certificate be granted to such applicant or not.

811. Certificates to Former Practitioners.—All practitioners who have been engaged in the practice of medicine, in any of its departments, in this State, prior to May 31st, 1889, shall, upon the production of a diploma from a medical college recognized by the American Medical Association, be granted by the board of examiners a certificate of qualification, without further examination and without charge.

812. Provisions not to Apply to Certain Persons.—The provisions of this chapter shall not apply to persons who have heretofore received certificates of qualification and have recorded the same as provided by the laws of this State heretofore existing, nor to females who follow the practice of midwifery strictly as such. No person, except those described in this section, shall be permitted to practice medicine in any of its branches or departments without first having obtained and recorded a certificate of qualification from some authorized board of medical examiners as hereinbefore provided.

Don't STAMMER

are endorsed by hundreds of ex-pupils, prominent physicians and leading business men. Book "Advice to Stammerers" and reference sent on request. Address The BENJ. N. BOGUE INSTITUTE FOR STAMMERERS. 1414 N. Illinois, Indianapolis, Ind.

I cured myself after stammering badly for nearly twenty years. I now employ the same methods to cure others. As "like cures like," what worked a cure with me will likewise permanently cure others. Graduates are found in every state, territory and some foreign countries. Students are accommodated in a home-like dormitory. Methods

GEORGIA.

CAPITAL, ATLANTA.

Population of State, 2,443,719.

(U. S. Census Bureau, 1906.)

Number of Physicians, 2,717.

Georgia, the last settled of the original thirteen states which united under the Federal Constitution to form the American Union, is the greatest in area of all the states east of the Mississippi river. It extends from 30 degrees 21 minutes 40 seconds to 35 degrees north latitude, and from 80 degrees 52 minutes to 85 degrees 35 minutes 38 seconds west longitude, and is bounded on the north by Tennessee and North Carolina, on the east by South Carolina and the Atlantic Ocean, on the south by Florida, and on the west by Alabama and Florida. The population of the state, according to the U. S. census of 1900, was 2,216,331, as against 1,837,353 in 1890, representing an increase during the decade of 378,978, or 20.6 per cent. The following table shows the increase in population since 1830:

1830.....	516,823	1870.....	1,184,109
1840.....	691,392	1880.....	1,542,180
1850.....	906,185	1890.....	1,837,353
1860.....	1,057,286	1900.....	2,216,331

The total land surface of Georgia is, approximately, 58,980 square miles, the average number of persons to the square mile at the censuses of 1890 and 1900 being as follows: 1890, 31.1; 1900, 37.5. Its maximum length from north to south is 320 miles, and its breadth 254 miles, with 128 miles of coast line indented by numerous sounds and inlets which separate a series of low, sandy islands from the mainland. The surface of the state presents a diversity of aspects from the low, sandy beach, broad swamps and marshes, level plains covered with pine, gently undulating hills and lofty mountains. There is a decided contrast in temperature between the northern and southern portions of the state, due to the difference in height above the sea and the latitude. At Atlanta the mean annual temperature is 58.36 degrees, and at Savannah 67.8 degrees. The average annual rainfall is 49.3 inches.

Agriculture is the most important branch of industry, while Georgia leads the Southern States in manufacturing, having valuable water power and important interests in the manufacture of textile stuffs, lumber, flour and in the smelting and manufacturing of iron.

There are a number of mineral springs in the state.

THE fifty-sixth annual session of the Atlanta College of Physicians and Surgeons begins Wednesday, September 21, 1910. With a group of five college buildings, arranged upon the modern university plan, and a corps of fifty-three professors and instructors, this institution stands second to no medical school in the country. The laboratory facilities are unsurpassed. The main college building contains the Chemical, Physiological, and Materia Medica Laboratories, and the Carnegie Pathological Institute contains three large laboratories, each equipped with an ample number of microscopes and all necessary apparatus and appliances for teaching Histology, Bacteriology and Pathology. A separate and distinct building is used for practical anatomy.

A four-years graded course of seven months each is required, the last year of which is devoted largely to clinical and practical work.

Our students have access to the Grady Hospital, across the street from the college, and all the principal Infirmarys and Hospitals in the city. A large out-door clinic, where more than 25,000 patients are treated a year, affords other valuable clinical instruction.

The buildings are new and commodious.
